If swallowed, get medical help or contact a Poison Control Center right away.

Directions

Water Additive

Mix additive with potable water as follows:

- Wear protective eyewear and gloves
- Follow sanitary procedures
- Thoroughly clean potable eyewash station and rinse with potable water
- Use a clean container of sufficient capacity to mix enough solution to fill eyewash station. Solution may be mixed directly in eyewash station
- Add entire contents of the bottle to the container
- Fill the station to the manufacturer's required level and mix and agitate thoroughly
- Date station inspection tag
- Station should be cleaned and refilled every 120 days when using the product
- Properly dispose of empty bottle after use
- **Do not reuse**

Other information

Water Additive

- Do not use if seal is broken
- Do not freeze
- Do not use if eye is lacerated or object is embedded
- For use in emergency eyewash stations only
- Mix per directions
- Sperial Water Additive must not be used undiluted or in solution for any other purpose
- Do not add any other chemicals or materials to this solution
- Avoid contact with skin
- Store between 35 ° F - 100 ° F (2 ° C - 38 ° C)

Inactive ingredient

Water Additive

chlorhexidene digluconate
