Stop use and ask a doctor if:

- Bleeding occurs
- Condition worsens or does not improve within seven days
- Signs of a local infection appear
- Certain person can develop allergic reactions to ingredients in this product. If the symptom being treated does not subside or if redness, irritation, swelling, pain, and or other symptoms develop or increase, **discontinue use and consult a doctor.**

If pregnant or breast-feeding, ask a health professional before use.

Keep out of the reach of children. If swallowed, get medical help or contact a poison Control Center right away 1 (800) 222-1222.

Children under 12 years

- consult a doctor

Directions**Adults**

- When practical, cleanse the affected area with mild soap and warm water
- Gently dry by patting or blotting with toilet tissue or a soft cloth before application of ointment
- With the help of the index finger, apply a generous layer of ointment
- For optimal results apply at least 2 times a day, morning and evening, for 5-7 consecutive days. Spread on to the affected area, generally on the exterior of the anus and in the vicinity of the anal orifice. Product should stay on affected area for several hours. Reapply if bathroom trip results in product removal.
