Poison Control Center: 1-800-222-1222

Emergency Medical Facility: _____

Health Professional: _____

Active Ingredient

Charcoal Activated

Purpose

First Aid Poison Adsorbent

Use

For emergency use to adsorb swallowed poisons.

Warnings

- **Do not use** Activated Charcoal until after patient has vomited unless directed by a health professional.
- **Do not use** in persons who are not fully conscious.
- **Do not use** this product unless directed by a health professional if turpentine, corrosives such as alkalies (lye) and strong acids or petroleum distillates, such as kerosene, gasoline, paint thinner, cleaning fluid or furniture polish have been ingested.
- **Do not use** if poison victim is unconscious or having convulsions. Keep patient active and moving.

Keep out of reach of children.

In case of accidental overdose, seek professional assistance or contact a Poison Control Center immediately.

Directions

When Activated Charcoal is indicated for use, give 3 to 4 heaping tablespoonfulls (20 to 30 g) mixed in a minimum of 8 ounces of liquid or as directed by a health professional. If an emergency, fill this bottle with water. Mix well and have poison victim drink all of this mixture. Repeat dose immediately, if possible. If previous attempts to contact a poison control center, emergency medical center or health professional were unsuccessful, continue trying. If possible save the container of poison.

Other Information

- Activated Charcoal has a very gritty texture and will coat the mouth, lips and tongue.
- Keep tightly closed in a cool dry place.
