**DIANEAL Low Calcium with Dextrose**

**Health Care Provider Letter**

**IMPORTANT PRESCRIBING INFORMATION**

DATE: October 21, 2024

**Subject: Temporary importation of DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose from China for use in Continuous Ambulatory Peritoneal Dialysis to address drug shortages**

Dear Healthcare Professional,

Due to the current critical shortage of DIANEAL PD-2 and DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution, Baxter Healthcare Corporation (Baxter) is coordinating with the U.S. Food and Drug Administration (FDA) to temporarily import DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose from Baxter's manufacturing facility in Guangzhou, China. FDA has not approved this product manufactured by Baxter's Guangzhou, China facility.

You may be provided with additional letters for other DIANEAL imported peritoneal dialysis solutions you receive. Please read each letter in its entirety because each letter may contain different, product-specific information.

Baxter has initiated temporary importation of DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose for use in Continuous Ambulatory Peritoneal Dialysis (CAPD) therapy as described in the table below. This product is manufactured by Baxter's manufacturing facility in Guangzhou, China and is marketed in Hong Kong. At this time, importation or distribution of DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution in the United States by any entity other than Baxter or its authorized distributor(s) is considered a violation of the Federal Food, Drug, and Cosmetic Act and is subject to enforcement by the FDA.

Effective immediately, and during this temporary period, Baxter will offer the following imported products from Baxter's facility in Guangzhou, China:

<b>China Imported Product Name and Description</b>	<b>CAPD Fill Volume</b>	<b>Product Code</b>	<b>Bags per Carton</b>	<b>NDC Code</b>
DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with 1.5% Dextrose	2500 mL	6AB9768E	4 bags	0941-0684-01 (bag) 0941-0684-04 (carton)
DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with 2.5% Dextrose	2500 mL	6AB9778E	4 bags	0941-0688-01 (bag) 0941-0688-04 (carton)
DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with 4.25% Dextrose	2500 mL	6AB9798E	4 bags	0941-0692-01 (bag) 0941-0692-04 (carton)

**It is important to note the following:**

- **DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose contains 2.5 mEq/L calcium compared to DIANEAL PD-2 Peritoneal Dialysis Solution which contains 3.5 mEq/L calcium.** Patients receiving China-imported DIANEAL solution should have their serum calcium levels monitored for the development of hypocalcemia.

- There are no other clinically relevant differences in the DIANEAL drug composition between the U.S.-manufactured and China-manufactured product (see Table 1, below). As such, clinical practice for usage, administration, and dosage for the China imported product is the same as with DIANEAL PD-2 and DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose manufactured in U.S. Please refer to the FDA-approved DIANEAL Peritoneal Dialysis Solution Prescribing Information for reference.
- DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solution with Dextrose imported from China will only be available in 2500 mL fill volume for CAPD therapy so there will need to be an adaptation to the PD prescription for some patients.
- The blue Luer-lock connector functions the same and is fully compatible with peritoneal dialysis sets marketed in the United States but is more deeply recessed than the white connector of U.S.-manufactured product and covers the end of the transfer set. China imported product has a single green frangible near the Y connector which is broken at the same time during flush phase as the corresponding blue frangible in U.S.-manufactured product. There two online clamps on the drain (blue clamp) and infusion (white clamp) lines in China-imported product so patients do not need to use the two external clamps needed for U.S.-manufactured product. China imported product has a green pull ring for all dextrose concentrations compared to the colored pull rings in U.S.-manufactured product which specify glucose concentration. See Table 1 for more details of product differences.
- The China imported product includes barcodes on the shipping carton; however, **the barcodes may not register accurately in the U.S. scanning systems.** There are no barcodes on the solution containers of the imported product. Alternative procedures should be followed to assure that the correct drug product is being used in all systems and processes and administered to individual patients. For example, institutions should consider manually inputting the product into their systems and confirm that barcode systems do not provide incorrect information when the product is scanned. Please note that the imported solutions bags do not have barcodes.
- DIANEAL PD-2 and DIANEAL Low Calcium (2.5 mEq/L) Peritoneal Dialysis Solutions are available only by prescription in the U.S. However, the imported product does not have the statement "Rx only" on the labeling.

Before prescribing, healthcare providers should be aware of some key differences in the container packaging and labeling between the China imported product and the FDA approved product which are stated in the product comparison tables at the end of this letter as follows:

- Table 1: Key differences of DIANEAL Peritoneal Dialysis Solution for CAPD therapy
- Table 2: Label images of DIANEAL 2500 mL CAPD product presentations

### Reporting Adverse Events

To report adverse events associated with these imported products, please call Baxter at 1-866-888-2472, or fax: 1-800-759-1801. Adverse events or quality problems experienced with the use of these imported products may also be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail or by fax:

- Complete and submit the report **Online:** [www.fda.gov/medwatch/report.htm](http://www.fda.gov/medwatch/report.htm)
- **Regular mail or Fax:** Download form [www.fda.gov/MedWatch/getforms.htm](http://www.fda.gov/MedWatch/getforms.htm) or call 1-800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178 (1-800-332-0178)

To report product quality issues, please report to:  
[Baxter - Product Feedback Portal \(https://productfeedback.baxter.com/\)](https://productfeedback.baxter.com/).
