

MCKESSON UNNA BOOT 3- zinc oxide dressing

MCKESSON UNNA BOOT 4- zinc oxide dressing

McKesson Medical-Surgical

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Drug Facts

Active ingredient

(in each gram)

Zinc Oxide 12%

Purpose

Skin Protectant

Uses

- Unna Boots with Zinc Oxide helps protect skin while offering compression and support.

Warnings

For external use only.

- If condition worsens or does not improve within 7 days, consult a doctor
- Avoid contact with eyes
- Keep this and all medicines out of children's reach

Directions

- Apply as needed
- Cleanse the leg and moisturize the skin, if necessary
- If a wound is present, apply an appropriate wound dressing for moist wound healing
- Position the foot and ankle at a 90° or right angle to the leg (dorsiflexed)
- Begin wrapping the medicated bandage without tension at the base of the toes. Wrap the leg with a light tension, overlapping each layer by approximately 50%, in a spiral fashion
- Wrap up the leg stopping 1-2 inches below the posterior knee
- Apply a tubular stockinette or cohesive bandage (not included) to protect the medicated bandage and clothing

Other information

- Keep away from sunlight. Store in a dry, ventilated area
- Do not store above 77°F (25°C)

Inactive ingredients

Glycerin, Methylparaben, Propylparaben.

MCKESSON

McKesson Unna Boot is a non-raveling gauze that is evenly impregnated with a non-hardening zinc oxide paste. The Unna Boot conforms easily to the foot or leg and provides a moist healing environment.

DIRECTIONS

- Apply as needed
- Cleanse the leg and moisturize the skin, if necessary
- If a wound is present, apply an appropriate wound dressing for moist wound healing

Position the foot and ankle at a 90° or right angle to the leg [dorsiflexed].

Begin wrapping the medicated bandage without tension at the base of the toes. Wrap the leg with a light tension, overlapping each layer by approximately 50%, in a spiral fashion.

Wrap up the leg stopping 1-2 inches below the posterior knee.

Apply a tubular stockinette or cohesive bandage (not included) to protect the medicated bandage and clothing.
