## MATTIFYING PRIMER SPF 20

### Back In Matte

Help control shine and blur imperfections of oily or blemish-prone skin. Colorescience® Mattifying Primer SPF 20 is formulated with rice proteins and peptides to smooth and even skin tone, extend makeup wear, and leave skin with a silky finish. Zinc oxide and titanium dioxide deliver all-mineral UVA/UVB sunscreen and environmental protection.

- + Dermatologist Tested
- + Non-comedogenic

### How to Use

Dispense half a pump to fingertips. Dot product around the face and blend, ensuring even coverage. Can be worn alone or under your favorite foundation.

### How to Use (EU)

Do not stay too long in the sun, even while using a sunscreen product. Keep babies and young children out of direct sunlight. Over-exposure to the sun is a serious health threat. Reducing the quantity of sunscreen product applied will lower the level of protection significantly. Generously apply sunscreen products before sun exposure. Keep out of eyes. Stop use and ask a doctor if adverse reaction occurs. Re-apply frequently to maintain protection, especially after perspiring, swimming or toweling.
