

ESCA HAND SANITIZING WIPES - alcohol liquid
ESCA Tech, Inc.

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Drug Facts

| Active Ingredient | Purpose |
|----------------------------------|------------|
| Ethyl Alcohol 65% by volume..... | Antiseptic |

Uses

Instant hand sanitizer and antiseptic

Handwash to help reduce bacteria that potentially can cause disease

Recommended for repeated use

Warnings

For external use only.

Flammable - Keep away from fire or flame.

Stop use and ask a doctor if irritation or redness develops.

If condition persists for more than 72 hours, consult a doctor.

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

Wet hands thoroughly with wipe and allow to dry without wiping.

If visibly soiled, remove visible soil and contamination first, discard first wipe, and use a second wipe to complete sanitizing.

Discard wipe after single use.

Other Information

This is not a baby wipe!

Remove lid from canister and discard seal from container.

Lift flap in center of lid.

Pull up corner of center wipe, twist to a point and thread through dispenser hole in lid.

DO NOT PUSH FINGER THROUGH OPENING.

Replace lid. Pull out exposed wipe and snap off. The next wipe pops out automatically.

Dispose of used wipes in trash receptacle. Snap center flap down when finished to retain moisture.

Do not flush.

Inactive Ingredients

water, isopropyl alcohol, glycerin, dimethicone, tocopheryl acetate

Part # SW-T160
