

TEAT-GLO TEAT DIP- iodine solution
Ecolab Inc.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

DANGER!

CAUSES EYE BURNS. Wear eye protection. Wash thoroughly after handling.

KEEP OUT OF REACH OF CHILDREN | FOR INDUSTRIAL USE ONLY - NOT FOR HOUSEHOLD USE

NOT FOR HUMAN USE

Read other label for directions for use, first aid and precautionary statements

DIRECTIONS:

IMPORTANT: Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

Udder Prep: When using an udder wash step before milking, make sure to wash teats with appropriate udder wash solution using proper cleaning procedures. Teats should then be dried with single-service towels.

Pre-Milk Dipping: Before each cow is milked, and using fresh Teat-Glo, dip each teat full-length into the teat dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Dipping: Using fresh Teat-Glo, dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving.

PRECAUTION: Teat-Glo is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

FIRST AID

Eye Contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin Contact: No known effect after skin contact. Rinse with water for a few minutes.

Inhalation: No special measures required. Treat symptomatically.

Ingestion: Get medical attention if symptoms occur.

Desinfectante de pezones por inmersión

PARA USO INDUSTRIAL SOLAMENTE

INSTRUCCIONES:

IMPORTANTE: No lo vuelva a diluir con agua ni lo mezcle con otros productos para baño de pezones. Si el producto del recipiente para realizar el baño está visiblemente sucio, deséchelo y refílene el recipiente con producto fresco. No vuelva a utilizar el producto ni vuelva a colocar producto sin usar en el contenedor original.

Preparado para uddes: Si se realiza un paso de limpieza de uddes antes del ordeño, asegúrese de limpiar los pezones con una solución para limpieza de uddes adecuada y procedimientos de limpieza apropiados. Los pezones deben secarse con toallas de uso único.

Señalo del pezón previo al ordeño: Antes de ordeñar cada vaca, bañe toda la superficie de cada pezón en un recipiente que contenga Teat-Glo fresco. Limpie los pezones con toallas de uso único luego del baño para evitar la contaminación de la leche.

Señalo del pezón posterior al ordeño: Bañe toda la superficie de cada pezón en un recipiente que contenga Teat-Glo fresco. No utilice paños. Deje secar al aire. No deje las vacas en un clima helado hasta que el producto se haya secado por completo.

Uso ampliado: Si la vaca va a parir, comience a realizar el baño dos veces al día unos 10 días antes del parto.

PRECAUCIÓN: Teat-Glo no está pensado para curar ni ayudar a sanar los pezones agrietados o irritados. Como cualquier germicida, el producto puede causar irritación o sensibilización en los animales sensibles. Si los pezones están agrietados o irritados, consulte a un veterinario que examine la condición y la trate si es necesario.

Consulte con su representante de ECOLAB para obtener instrucciones específicas sobre el uso y el equipo dispensador recomendado.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS.

PELIGRO!

CAUSA QUEMADURAS EN LOS OJOS. Use protección ocular. Lávese completamente después del manejo.

PRIMEROS AUXILIOS

Contacto con los ojos: En caso de contacto, lávese de inmediato los ojos con agua fría corriente. Quite los lentes de contacto y continúe lavándose con abundante agua durante 15 minutos por lo menos. Obtenga atención médica inmediatamente.

Contacto con la piel: No se conocen efectos sobre el contacto con la piel, enjuague con agua durante unos minutos.

Inhalación: No se requieren medidas especiales. Tratar sintómicamente.

Ingestión: Obtenga atención médica si se presentan síntomas.
