EXTRANEAL Peritoneal Dialysis Solution with 7.5% Icodextrin

Health Care Provider Letter

IMPORTANT PRESCRIBING INFORMATION

DATE: November 15, 2024

Subject: Temporary importation of EXTRANEAL Peritoneal Dialysis Solution with 7.5% Icodextrin from Singapore for use in Automated Peritoneal Dialysis to address drug shortages

Dear Healthcare Professional,

Due to the current critical shortage of EXTRANEAL (icodextrin) Peritoneal Dialysis Solution in the United States (US) market, Baxter Healthcare Corporation (Baxter) is coordinating with the U.S. Food and Drug Administration (FDA) to temporarily import EXTRANEAL from Baxter's manufacturing facility in Woodlands, Singapore. FDA has not approved this product manufactured by Baxter's Woodlands, Singapore facility.

You may be provided with additional letters for other imported peritoneal dialysis solutions you receive. Please read each letter in its entirety because each letter may contain different, product-specific information.

Baxter has initiated temporary importation of EXTRANEAL (icodextrin) Peritoneal Dialysis Solution for use in Automated Peritoneal Dialysis (APD) therapy as described in the table below. This product is manufactured by Baxter's manufacturing facility in Woodlands, Singapore and is marketed in Singapore. At this time, importation or distribution of this EXTRANEAL (icodextrin) peritoneal dialysis solution in the United States by any entity other than Baxter or its authorized distributor(s) is considered a violation of the Federal Food, Drug, and Cosmetic Act and is subject to enforcement by the FDA.

Effective immediately, and during this temporary period, Baxter will offer the following imported products from Baxter's facility in Woodlands, Singapore:

Product Name and Description	CAPD Product Code FIII Volume		Bags per Carton	NDC Code	
EXTRANEAL Peritoneal Dialysis Solution with 7.5% Icodextrin	2000 mL	FNB4974SG	6	NDC 0941-0707-03 (Bag) NDC 0941-0707-08 (Carton)	

It is important to note the following:

- There are no clinically relevant differences in the EXTRANEAL drug composition between the Singapore-manufactured and US-manufactured APD product (see Table 1). As such, clinical practice for usage, administration, and dosage for Extraneal with 7.5% icodextrin (manufactured in Singapore) product is the same as with the Extraneal with 7.5% icodextrin (manufactured in US). Please refer to the FDA-approved EXTRANEAL (icodextrin) Peritoneal Dialysis Solution Prescribing Information for reference.
- EXTRANEAL (icodextrin) Solution for Peritoneal Dialysis imported from Singapore will only be available in 2000 mL fill volume for APD.

- Calcium and Magnesium electrolyte concentrations are identical in EXTRANEAL manufactured in Singapore and the US but appear different as they are expressed in mmol/L (Singapore) and in mEq/L (US).
- The Luer-lock connector functions the same and is fully compatible with peritoneal dialysis sets marketed in the
 United States. However, the U.S. product has a purple pull ring covering the luer to identify the solution, while the
 Singapore imported product has a blue protective tip protector. The frangible is green in the Singapore imported
 product, but blue in U.S. product. Users of the imported product should check the product label to ensure that they
 are using the correct APD solution. See Table 1 for more details of product differences.
- EXTRANEAL Solution for Peritoneal Dialysis with 7.5% icodextrin imported from Singapore includes barcodes on
 the shipping carton; however, the barcodes may not register accurately in the US scanning systems. There
 are no barcodes on the solution containers of the imported product. Alternative procedures should be followed to
 assure that the correct drug product is being used in all systems and processes and administered to individual
 patients. For example, institutions should consider manually inputting the product into their systems and confirm
 that barcode systems do not provide incorrect information when the product is scanned.
- EXTRANEAL (icodextrin) Solution for Peritoneal Dialysis is available only by prescription in the US. However, the imported product does not have the statement "Rx only" on the labeling.

Before prescribing, healthcare providers should be aware of some key differences in the container packaging and labeling between the EXTRANEAL (icodextrin) Solution for Peritoneal Dialysis products (manufactured in Singapore) and EXTRANEAL (icodextrin) Peritoneal Dialysis Solution (manufactured in US).

Key differences are highlighted in the following Product Comparison Tables:

- Table 1: Key differences between imported and FDA-approved EXTRANEAL for APD therapy
- Table 2: Label images of imported and FDA-approved EXTRANEAL for APD therapy

Reporting Adverse Events

To report adverse events associated with the imported product, please call Baxter at 1-866-888-2472, or fax: 1-800-759-1801. Adverse events or quality problems experienced with the use of the imported product may also be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail or by fax:

- Complete and submit the report On-line: www.fda.gov/medwatch/report.htm
- Regular Mail / Fax: Download form www.fda.gov/MedWatch/getforms.htm or call 1-800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178 (1-800-332-0178).

To report product quality issues, please report to:

Baxter - Product Feedback Portal (https://productfeedback.baxter.com/)

Please refer to the FDA approved full prescribing information for EXTRANEAL (icodextrin) Peritoneal Dialysis Solution at Daily Med (nih.gov).

If you have any questions about the information contained in this letter or the use of imported EXTRANEAL (icodextrin) Peritoneal Dialysis Solution, please contact Baxter's Medical Information Service at 1-888-736-2543.

To place an order, please contact Baxter's Center for Home Care Services by calling 1-800-284-4060.

Baxter

Sincerely

Product Comparison Tables 1 and 2

Table 1. Key differences between Imported and FDA-approved EXTRANEAL for APD therapy

	Imported Product from Singapore	US FDA Approved Product	
Product name	EXTRANEAL Peritoneal Dialysis Solution with 7.5% loodextrin	EXTRANEAL (icodextrin) Peritoneal Dialysis Solution	
Labeled Fill Volume	2000 mL	2000 mL 2500 mL	
Container Type	Ambu-Flex Container (PVC)	Ambu-Flex Container (PVC)	
Bags per carton	6 bags	2000 mL: 6 bags 2500 mL: 5 bags	
Indications	EXTRANEAL is recommended as a once daily replacement for a single Dextrose exchange as part of a CAPD or automated peritoneal dialysis (APD) regimen for the treatment of chronic renal failure, particularly for some categories of patients who have lost ultrafiltration on Dextrose solutions, because it can extend time on CAPD therapy in such patients.	EXTRANEAL (icodextrin) is indicated for a single daily exchange for the long (8- to 16- hour) dwell during continuous ambulatory peritoneal dialysis (CAPD) or automated peritoneal dialysis (APD) for the management of kidney failure in patients requiring long-term kidney replacement therapy. EXTRANEAL is also indicated to improve (compared to 4.25% dextrose) long-dwell ultrafiltration and clearance of creatinine and urea nitrogen in patients with high average or greater transport characteristics, as defined using the peritoneal equilibration test (PET).	
Active Ingredients	7.5 g/100mL Icodextrin 538 mg/100mL Sodium Chloride, USP 448mg/100mL Sodium Lactate 25.7 mg/100mL Calcium Chloride, USP 5.08 mg/100mL Magnesium Chloride, USP	7.5 g/100 mL Icodextrin 535 mg/100 mL Sodium Chloride, USP* 448 mg/100mL Sodium Lactate* 25.7 mg/100mL Calcium Chloride, USP* 5.08 mg/100 mL Magnesium Chloride, USP* * considered exciplents in US drug registration	
Electrolyte Content per Liter	Sodium 132 mmol/L (equivalent to 132 mEq/L) Calcium 1.75 mmol/L (equivalent to 3.5 mEq/L) Magnesium 0.25 mmol/L (equivalent to 0.5 mEq/L) Chloride 96 mmol/L (equivalent to 96 mEq/L) Lactate 40 mmol/L (equivalent to 40 mEq/L)	Sodium 132 mEq/L Calcium 3.5 mEq/L Magnesium 0.5 mEq/L Chloride 96 mEq/L Lactate 40 mEq/L	
pH	pH 5.2 (5.0 - 6.0) HCl / NaOH may have been used to adjust pH	pH 5.0 - 6.0 HCl / NaOH may have been used to adjust pH	
Additional Information	Osmolarity 284 mOsmol/L	Osmolarity (Calc) 282 – 286 mOsmol/L	
Storage Conditions	Store below 30°C	Store at 20-25°C (68-77°F). Excursions permitted to 15-30°C (59-86°F) [See USP Controlled Room Temperature]. Protect from freezing.
