Active ingredients

(in each packet)

Sodium Bicarbonate USP (700 mg)

Sodium Chloride USP (2300 mg)

Inactive Ingredients

None

Instructions for Use of the SinuCleanse Neti Pot

Directions: Read through entire section before using for the first time.

1. Empty the contents of one SinuCleanse Saline Wash packet into the SinuCleanse Neti Pot. First-time users should start with 1/2 packet of the SinuCleanse dry ingredients. As you become more accustomed to the system, work up to using 1 full packet. Additional packets may be purchased from your nearest pharmacy.

2. Fill the pot halfway or to the middle of the indentation with a proper water source.* This makes 1/2 cup (4 oz.) solution.

3. Stir thoroughly until dry ingredients have completely dissolved.

4. Proper head position allows solution to flow through the nose by gravity.

- Lean over the sink with your head bent down so you are looking directly into the basin.

Holding the pot in your right hand, gently insert the spout into your right nostril so that it

forms a comfortable seal.

- Rotate your head so that the right nostril is directly above the left. The forehead should

remain higher than the chin. Raise the handle of the pot so that the solution enters the right

nostril. In a few moments, the solution will begin to drain out the left nostril into the sink.

Do not inhale or "snort" solution into the nose - breathe through your mouth.

5. When the pot is empty, exhale through both nostrils to clear them

of excess mucus and solution. Gently blow your nose into a tissue.

6. Repeat the procedure on the other side.

7. Thoroughly rinse the pot after each use with water that has been distilled, sterilized, filtered or previously boiled and leave the pot to air dry completely. The SinuCleanse Neti Pot is top-rack dishwasher safe.

Developed and Recommended by a Leading Ear, Nose & Throat Physician

NEW PACKAGING

SinuCleanse[®] Neti Pot products were developed by a leading U.S. Ear, Nose & Throat Physician as an all-natural way to immediately relieve nasal congestion, and sinus symptoms without the worry of any harmful side-effects or drug interactions.

Relieves Symptoms From:
Nasal Congestion - Sinusitis and Rhinitis
Sinus Pressure - Cold and Flu - Nasal Dryness - Allergies

The SinuCleanse[®] Genie Style Neti Pot and its patented design allows the gentle flow of gravity to deliver the all-natural SinuCleanse[®] saline solution. It's clear blue design enables you to view the water level, and make sure the saline is completely dissolved prior to nasal washing. The SinuCleanse[®] Genie Style Neti Pot has a comfortable tip, fit every nose.

The SinuCleanse[®] Pharmaceutical Grade Saline Packets contain all natural, preservative free, ultra-fine salt granules which dissolve instantly making nasal washing comfortable and easy.

SinuCleanse[®] products are medically proven to be safe and effective, and recent studies have shown that when used regularly, may reduce the duration and frequency of cold and flu symptoms. Nasal washing regularly also promotes long term sinus health by moisturizing dry nasal passages, and aiding in the removal of nasal irritants such as dust particles, pollen, and other debris, keeping nasal passages clear, allowing you to breathe easier.

SinuCleanse[®] Products utilize the highest quality ingredients and are made & assembled in U.S.A. FDA Registered Facilities to ensure Quality, Safety and Effectiveness.

Should I use an Isotonic or Hypertonic Solution?
SinuCleanse[®] Pharmaceutical Grade Saline Packets can be used as either isotonic or Hypertonic solutions. Check with the guide below or consult with your physician for best use.

An isotonic solution creates a mild less concentrated salt solution of 0.9% of Sodium Chloride per one ounce which has a similar salt concentration of your body and may be more comfortable to use for some people initially than a more concentrated hypertonic solution.

A hypertonic solution creates a higher more concentrated salt solution which is similar to the salt content of ocean water.

Isotonic Solution	SinuCleanse [®] Saline Packets (0.1 OZ (3 g) each) (120 Pack)
Hypertonic Solution	SinuCleanse [®] Saline Packets (0.1 OZ (3 g) each) (120 Pack)

Important Note: SinuCleanse[®] Saline Packets contain 3 grams of pharmaceutical grade salt. Using the calculations in the chart above, you can prepare either an isotonic or Hypertonic Solution. Since contents of other manufacturer's Salt Packets may vary, please check with their directions for isotonic or Hypertonic use.
