

API SUPER ICK CURE- benzaldehyde green liquid
MARS FISHCARE NORTH AMERICA, INC.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Drug Label

Each 5 ml contains 1.3 mg Benzaldehyde Green

DIRECTIONS: Remove activated carbon from filter and continue aeration. Add 1 teaspoonful (5 ml) per 5 U.S. gallons (19 L) of aquarium water. Repeat dose after 48 hours. Wait another 48 hours then change 25% of the aquarium water and add fresh activated carbon. Treatment may be hastened by raising the water temperature to 82 F (28 C)

CAUTION: Some scaleless fish are sensitive to this medication; therefore, treat at 1/2 the normal dose. Corals, Shrimp and other invertebrates may also be sensitive to this medication. We do not recommend usage in reef aquariums or any freshwater or saltwater aquarium with invertebrates.

Note: This medication will discolor water and may stain aquarium sealant and ornaments. Use API BIO-CHEM ZORB or activated carbon 48 hours after final treatment to remove color from water. Each 5 ml contains 1.3 mg Benzaldehyde Green.

Not for human consumption or for the treatment of fish intended for human consumption. Keep out of reach of children. Store below 100.4°F (38°C).
