Packaging

Developed with Pediatric Dermatologists, this cream provides instant and long-lasting relief and leaves skin fully hydrated to prevent the recurrence of dry, itchy skin.

Baby Dove Eczema Care Soothing Cream with its patented PPAR technology restores the skin moisture barrier and moisturizes from within, helping baby's delicate skin become stronger.

How to Use: Warm cream in your hands, apply to your baby's skin and massage. For best results, use immediately after bathing with **Baby Dove Derma Care Soothing Wash** to lock in moisture.

+hydratant prébiotique

Mise au point avec des dermatologues pédiatriques, cette crème procure un soulagement instantané et durable et hydrate pleinement la peau afin de prévenir la récurrence de la peau sèche qui démange.

La Crème apaisante Soins de l'eczéma Baby Dove, avec sa technologie PPAR brevetée, rétablit la barrière hydrique de la peau et l'hydrate de l'intérieur, aidant la peau délicate de bébé à devenir plus forte.

Mode d'emploi : Frotter la crème dans vos mains, appliquer et masser sur la peau de votre bébé.

Pour de meilleurs résultats, utiliser immédiatement après le bain avec le **Nettoyant apaisant Baby Dove Derma Care** pour sceller l'hydratation.
