### **Regency Post-Milking Teat Dip**

#### **ACTIVE INGREDIENTS:**

ACTIVE INGREDIENTS	Purpose
Phenol (1.56% w/v)	Disinfectant
Phenolate Sodium (0.06% w/v)	Disinfectant

#### **PURPOSE:**

<b>Active Ingredients</b>	Purpose
Phenol (1.56% w/v)	Disinfectant
Phenolate Sodium (0.06% w/v)	Disinfectant

# Keep Out of Reach of Children

If swallowed, get medical help or contact Poison Control Center right away.

#### **USES:**

#### FOR ANIMAL USE ONLY

Aids in controlling mastitis organisms with a softening effect on teats.

#### **Directions for Use:**

Before milking, wash udder and teats with damp cloth. Immediately after milking, dip each teat 1 to 2 inches into REGENCY Teat Dip.

Allow each teat to air dry. Do not wipe.

During the winter months, keep cows inside until the teats have completely dried to prevent freezing and chapping.

When cow is being dried out, dip each teat in REGENCY 1X Post-Milking Teat Dip once a day for 3 to 4 days after the last milking.

#### **CAUTION:**

Avoid eye contact. Do not inhale fumes. For external use only.

#### FIRST AID:

**For Ingestion** - Immediately give castor oil or vegetable oil (15 -30cc). Get medical attention immediately.

Be ready tp induce vomiting at the advice of a physician or poison control center.

**For Eyes** - Immediately flush eyes with water for at least 15 minutes. Wash affected skin with water.

#### When Using this product:

Do not Store in Direct Sunlight.

Avoid Excessive Heat.

#### **USER SAFETY WARNING:**

Do Not Allow Product To Freeze. If frozen, allow product to completely than in a warm room. Shake and thoroughly mix product before using.

RInse teat dip cup with water after each milking and invert to dry.

Never pour used teat dip into original container.

Keep cap on container when not in use.

#### **INACTIVE INGREDIENTS:**

Water, Glycerin, Linear Alkylbenzene Sulfonate, Sodium Borate, Fragrance, FD&C Blue # 1

FIRST AID: For Ingestion - Immediately give castor oil or vegetable oil (15 - 30cc). Get medical attention immediately. Be ready to induce vomiting at the advice of a physician or poison control center. For Eyes - Immediately flush eyes with water for at least 15 minutes. Wash affected skin with water.
