

MAXI/GUARD ORAL CLEANSING GEL- zinc gluconate gel
Addison Biological Laboratory, Inc.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Maxi/Guard Oral Cleansing Gel

BENEFITS: Cleanses the oral cavity, freshens the breath by helping eliminate odor causing bacteria, and has superior pet acceptance in a one-step applicator.

DIRECTIONS: Remove cap/applicator tip and pour attached vial contents (Vitamin C) into bottle. Replace cap/applicator tip and allow Vitamin C to drop to the bottom of bottle. Shake until dissolved. Twist tip to expose hole in top of tip. One pea-sized drop placed on index finger, swab, or finger brush and applied above the outside upper molars on each side will provide optimum pet acceptance in cats and small dogs. Use slightly more for medium to large dogs. Many dogs will accept direct application from the applicator tip.

A natural cleansing action will distribute gel to remote areas of the mouth. Use daily for best results. To prevent clogging, securely close applicator tip after each use.

STORAGE: Keep out of direct sunlight. The mixed product should be refrigerated for maximum shelf life.

COLOR CHANGE: A blue or green color ensures freshness. Yellow or brown product has expired.

INGREDIENTS: Deionized Water, Zinc Gluconate, Ascorbic Acid (Vitamin C), Taurine, Xanthan Gum, Methylparaben, Propylparaben, F.D.&C. Blue No.1

Available through licensed veterinarians.
