Drug Facts

Active ingredient	Purpose
(in each 120 ml delivered dose) Mineral oil 100%.....	Lubricant laxative

Use
 ■ for relief of occasional constipation
 ■ this product generally produces bowel movement in 2 to 15 minutes

Warnings
 For rectal use only.
 Caution: To be taken only at bedtime. Do not use at any other time or administer to infants, except upon the advice of a physician.
 Do not use ■ on children under 13 years of age ■ on pregnant women ■ on persons with difficulty swallowing ■ on bedridden patients ■ if you are presently taking a stool softener laxative ■ or take with meals
 Ask a doctor before use if you ■ have already used a laxative for more than 3 days ■ have abdominal pain, nausea, or vomiting ■ have a sudden change in bowel habits that persist over a period of 2 weeks
 Stop use and ask a doctor if ■ you have rectal bleeding ■ you have no bowel movement within 30 minutes of enema use
 As with any drug, if you are nursing a baby, seek the advice of a health professional before using this product.
 Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away: 800-222-1222.

Directions (or as directed by a doctor)
 Rectal enema dosage is 120 ml in a single daily dosage (per 24 hours).

Adults & children 13 years old and older	1 bottle
Children under 13 years old	DO NOT USE

Other information
 ■ Store at 15 to 30°C (59 to 86°F).
 ■ Tamper Evident: DO NOT USE IF TOP OR BOTTOM FLAP OF CARTON IS TORN OR MISSING.

Inactive ingredient
 None

How to use this enema:
 REMOVE ORANGE PROTECTIVE SHIELD BEFORE INSERTING: Hold bottle upright grasping bottle cap with fingers. Grasp protective shield with other hand and pull gently to remove.

Position for using this enema:

■ **Left-side position:** Lie on left side with knee bent and arms at rest.

■ **Knee-chest position:** Kneel, then lower head and chest forward until left side of face is resting on surface. Position arms comfortably.

Administering enema:

- With steady pressure, gently insert enema tip into rectum with a slight side-to-side movement, with tip pointing toward navel. Insertion may be easier if person receiving enema bears down, as if having a bowel movement. This helps relax the muscles around the anus.
- Do not force the enema tip into rectum as this may cause injury.
- Squeeze bottle until nearly all liquid is gone. It is not necessary to empty the bottle completely, as it contains more liquid than needed.
- Remove tip from rectum and maintain position until urge to evacuate is strong (usually 2 to 15 minutes).
- Discontinue use if resistance is encountered, forcing the enema can result in injury.
- Retain enema in accordance with doctor's instructions.
