**Ask doctor before use if you have**

- heart disease
- high blood pressure
- thyroid disease
- diabetes
- difficulty in urination due to enlargement of the prostate gland

**Ask doctor before use if you are** presently taking a prescription drug for high blood pressure or depression

### **Stop Use and Ask Doctor if**

- Bleeding occurs
- Condition worsens or does not improve within 7 days
- Introduction of applicator into the rectum causes additional pain

### **If Pregnant or Breast-Feeding**

Ask a doctor before use

### **Keep out of reach of children**

If swallowed get medical help or contact a Poison Control Center right away (1-800-222-1222).

### **Directions**

Adults:

- When practical, cleanse the affected area by patting or blotting with an appropriate cleansing wipe. Gently dry by patting or blotting with a tissue or a soft cloth before applying ointment.
- Apply to the affected area up to 4 times daily, especially at night, in the morning or after each bowel movement.
- Intrarectal Use: remove cover from applicator, attach applicator to tube, lubricate applicator well and gently insert applicator into the rectum, thoroughly cleanse applicator after each use and replace cover.
- Also apply ointment to external area
- Regular use provides continual therapy for relief of symptoms
- Children under 12 years of age: ask a doctor

### **Other Information**

- Store at room temperature 20°-25°C (68°-77°F)
- Do not use if tube seal is broken or missing
