# Super Restorative Day

Illuminating lifting replenishing cream SPF 20

All skin types

Luxurious, protective skin care which meets the specific needs of skin weakened by hormonal changes linked to ageing. Your skin appears immediately brighter, smoother and protected. Day after day it is replenished and visibly lifted, leaving it looking incredibly radiant and beautiful.

Replenishes the skin at all levels, visibly lifts, helps fight against skin slackening

Following an extensive study of skin weakened by hormonal changes, Clarins Laboratories have revealed the vital role of the fibroblast, a cell in the dermis which plays a key part in maintaining youthful skin. Deprived of hormones, its functions are disrupted and the skin ageing process speeds up.

A Clarins discovery, harungana\* plant extract has the ability to reactivate the deprived fibroblast and thus stimulate the production of collagen fibres\*\*. Combined with new generation, line-filling pearls which immediately plump the skin, it helps to replenish the skin at all levels and fight against skin slackening. Your skin's density is replenished and "tighter" and the look of deep wrinkles is reduced.

Helps minimize the appearance of age spots, instantly illuminates, provides long-lasting nourishment

A vitamin C derivative combined with SPF20 sun protection helps minimize the appearance of age spots, while beauty-enhancing pigments immediately illuminate and even the complexion. Double molecular weight hyaluronic acid and shea butter moisturize and nourish, to restore comfortable, supple skin.

Apply every morning to the face and neck, after Super Restorative Serum.

Anti-pollution and sun protection. Dermatologist tested. Non-comedogenic.

\* Patent application. \*\* In vitro tests.
