

WELLDoc BLUESTAR OR WELLDoc DIABETESMANAGER SYSTEM AND DIABETESMANAGER RX SYSTEM- accessories, pump, infusion

WellDoc, Inc

Prescription Medical Device

User Guide

Product Description

The World's First Mobile Prescription Therapy

BlueStar™ is an FDA Cleared product for type 2 diabetes. It is only available with a prescription from your healthcare provider.

IS BLUESTAR RIGHT FOR YOU?

Are you struggling to manage your diabetes? Is it overwhelming and confusing? We know that trying to

remember your doctor's advice about medications, diet, and exercise isn't easy, but diabetes doesn't have to take over your life. Talk to your doctor about getting a prescription for BlueStar.

DIABETES SUPPORT, ANYTIME ANYWHERE™

BlueStar is not a pill or a shot — it's a completely new kind of approach to support you and help you manage your type 2 diabetes. BlueStar's real-time coaching fits into your daily life helping you stay on track with your diabetes self-care. It works with you, struggles with you, achieves with you, and celebrates with you. It can help make living with diabetes easier which makes for a healthier, happier you. BlueStar is accessible from your mobile phone, tablet, or computer, and supports your healthcare provider's instructions while providing you with diabetes education and motivational support.

COORDINATE YOUR CARE WITH YOUR DOCTOR

Before your next diabetes check-up, you can use BlueStar to send your information to your doctor. This helps your healthcare provider understand the challenges that you face between appointments so that during your office visit you can discuss a treatment plan that is just right for you.

INDICATION FOR USE

BlueStar is indicated for use by healthcare providers and their adult patients, aged 21 years and older, who have type 2 diabetes. BlueStar provides secure capture, storage, and transmission of diabetes data, as well as, motivational, behavioral, and educational coaching messages to aid in diabetes self-management. BlueStar is not intended to replace the care provided by a licensed healthcare professional, including prescriptions, diagnosis, or treatment.

CONTRAINDICATIONS: Type 1 diabetes, patients on insulin pumps, patients less than 21 years of age, and women who are pregnant.

IMPORTANT SAFETY INFORMATION: For medical questions, please contact your healthcare provider. If you are experiencing an emergency, please dial 911.

Caution: Federal law restricts this device to sale by or on the order of a physician.

For more information visit www.bluestardiabetes.com

BlueStar Customer Care

Available to Answer Your Questions

BlueStar™ Customer Care can assist you with the following:

- How to use BlueStar

- Reporting of errors when trying to use BlueStar
- Technical questions related to BlueStar on web and/or mobile
- Questions about your prescription or health insurance reimbursement

Available: Monday-Friday, 9:00 a.m.-5:00 p.m. (ET)
Phone: (888) 611-4794

Getting Started

If you are new to BlueStar™, select the Sign Up button to begin the registration process or Log In with your username and password.

The screenshot shows the BlueStar website interface. At the top left is the BlueStar logo. On the right, there is a 'New to BlueStar?' link and a blue 'Sign Up' button. Below these are input fields for 'Username' and 'Password', followed by a blue 'Log In' button. There are also links for 'Forgot Password?' and 'Forgot Username?'. The main content area features the text 'Available on most data enabled devices' and a sub-headline 'Patients can use BlueStar on their own mobile device or any computer with an internet connection.' Below this text is an image of a smartphone, a tablet, and a laptop, all displaying the BlueStar app interface. At the bottom of the main content area are two buttons: 'Available on the App Store' and 'GET IT ON Google play'. The footer contains the text 'POWERED BY WellDoc' and '© 2014 WellDoc Inc. All rights reserved.'

Using BlueStar on your phone

BlueStar™ on mobile is recommended for use on phones with iOS 6 and greater or Android OS 2.2 and greater

BlueStar Mobile

Log In

- a. Enter Username.
- b. Enter Password.
- c. Tap Log In.

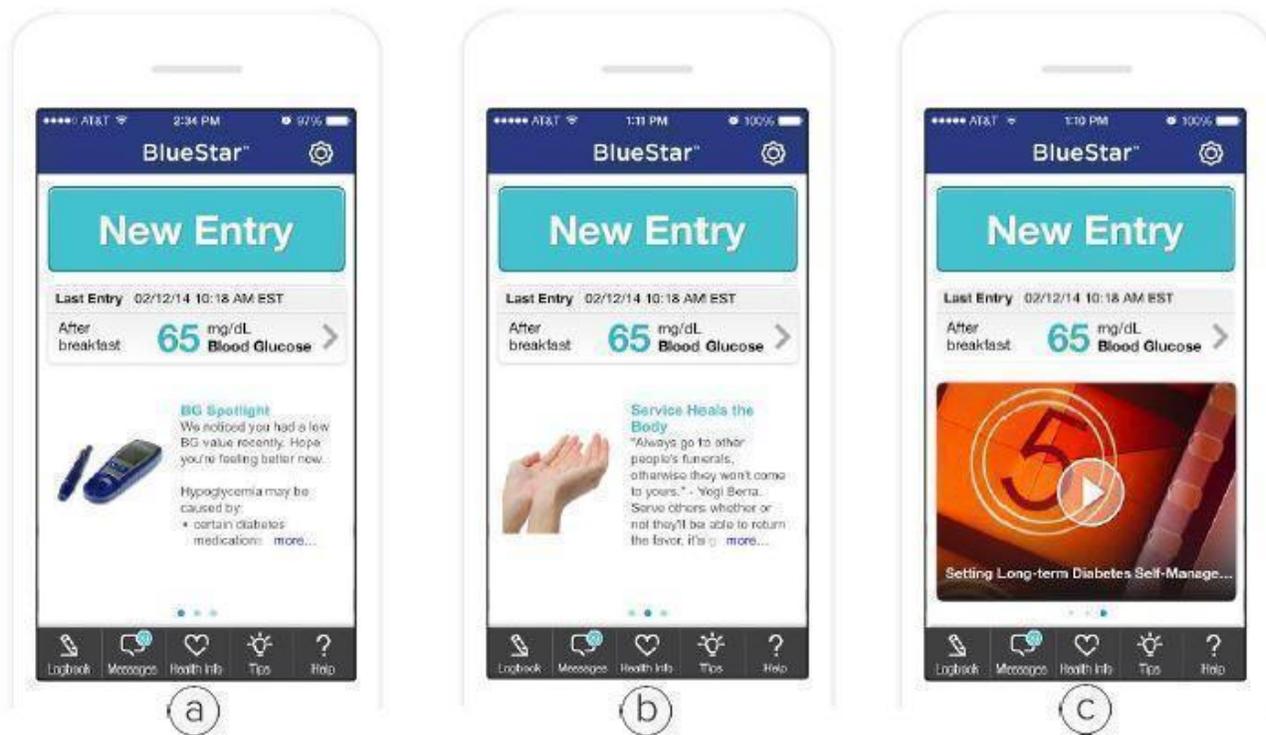

Trouble logging in?

- d. Tap Forgot Password? to retrieve your BlueStar™ password.
- e. Tap Forgot Username? to retrieve your BlueStar username.

New to BlueStar?

- f. Tap Sign Up to register for BlueStar. This will prompt you to complete your registration via the registration form.

Home Screen (Mobile)

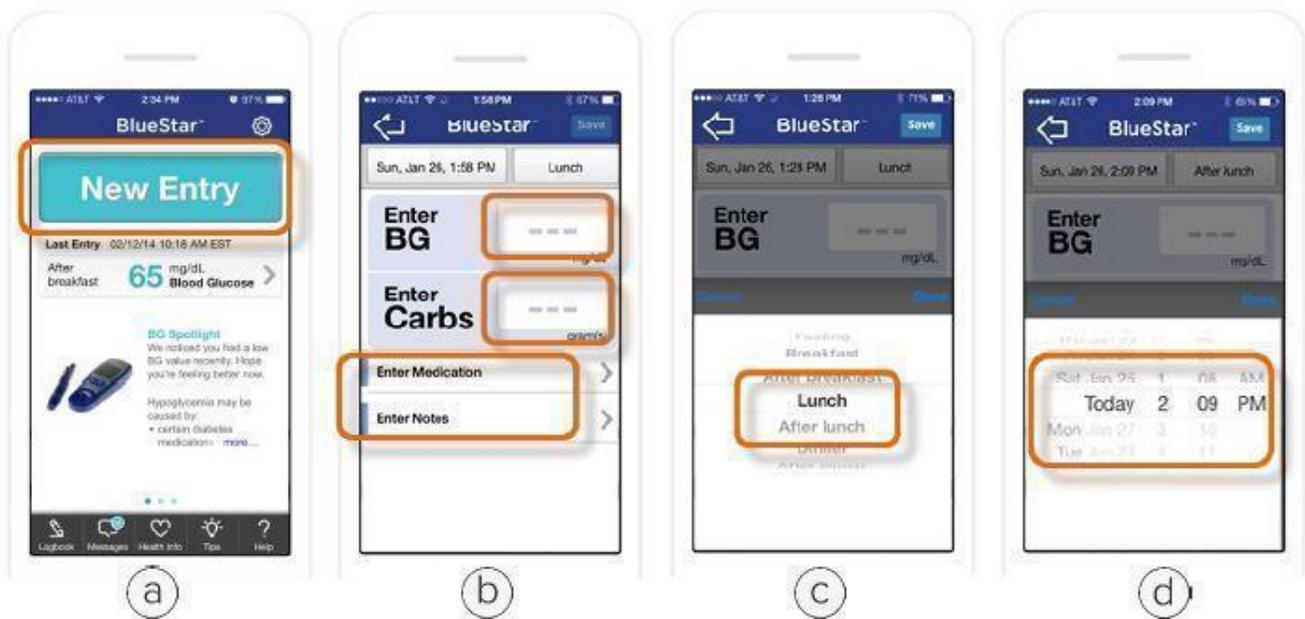

The BlueStar™ carousel displays important information to help you manage your diabetes.

a. BG Spotlight. Your BG entries are reviewed on a daily basis. When BlueStar sees something worth noting, it delivers a message to your carousel. The message also appears in your logbook for that day.

b. Motivational Message. This provides support for your general health and well-being. A new motivational message is displayed daily.

c. Educational Video. The educational videos are designed to provide “need to know” information about diabetes in a way that fits into your busy schedule. The videos are short (2-5 minutes) and cover various aspects of diabetes. Each video is available for 48 hours before it is replaced by the next video in the carousel.

Entering Information

a. Click on New Entry.

b. Enter any of the following:

- Blood Glucose readings (BG)
- Number of Carbs in your meal
- Medication - Medications are displayed as “Scheduled” or “Other”. Daily medications are displayed under “Scheduled” if their administration time is within 60 minutes of the current time. Weekly and Monthly medications are displayed under “Scheduled” if their administration time is within 8 hours of the current time. Medications that are not scheduled for the current time are displayed under “Other”.
- Notes - Tap Notes to enter important information related to your BG entry.

c. Activity Type - The Activity Type defaults according to your Daily Schedule presets on the web application. Scroll through to select your current Activity Type.

d. Date and Time - The current Date and Time is displayed. You may also adjust this portion to view or edit entries from an earlier date.

Recording Medications

a. Medication Administration Display:

- Your medications are displayed grouping your doses by the time of day you are scheduled to take them.
- Full prescription information for metabolic meds (those for BG, BP, or cholesterol) is only displayed once your provider confirms the dose (e.g. number of pills, units of insulin, etc.). If the dose is not yet confirmed, or there is a conflict between the information entered and your provider’s records, the name of the med will be displayed without the dose.

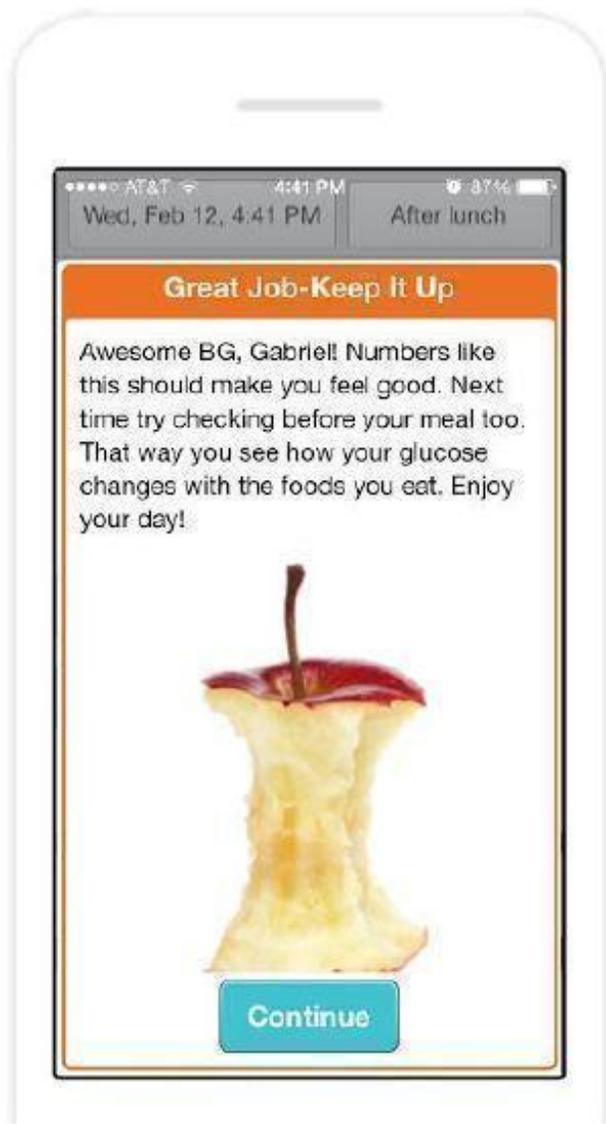

Note: Always continue your medications as prescribed and confirm your prescription information with your healthcare provider at your earliest convenience.

- For non-metabolic medications, we do not request that your provider confirm that information, so the total prescribed dose is never displayed.

b. Recording Your Medication Dose:

- Simply choose the medication you wish to record and enter the dose (number of pills, units of insulin, etc.) that you took.

Coaching Messages

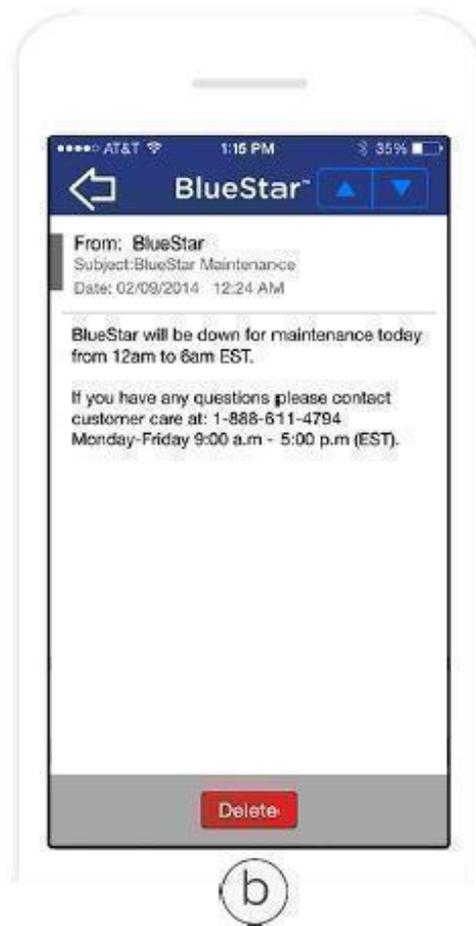

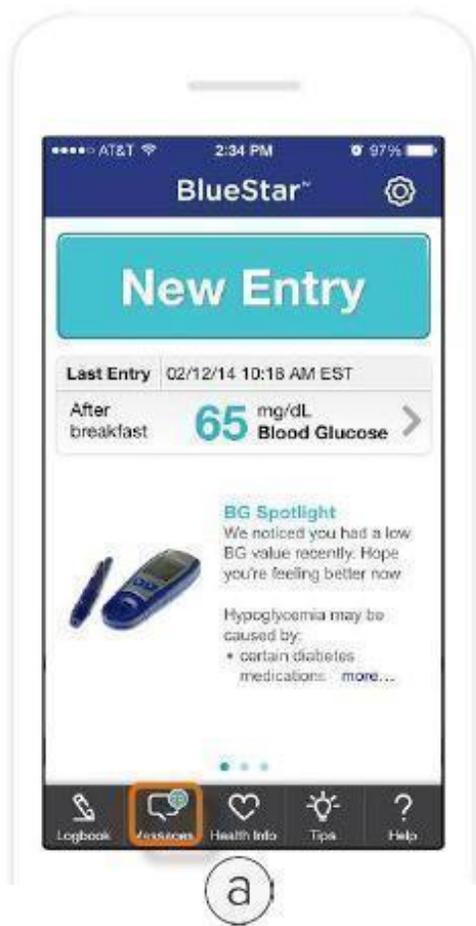

BlueStar™ provides you with coaching messages about BGs within 120 minutes of the blood glucose entry (within 30 minutes if the blood glucose is less than 70 mg/dL). These messages provide you with several different types of information:

- Immediate coaching on your BG value
- Information on nutrition
- Education about diabetes related health issues like blood pressure and cholesterol
- Messages of motivation and inspiration, or personal stories from other people with diabetes

All BGs entered are included in the BG Spotlight message if the BG shows something important that you should pay attention to.

Messages

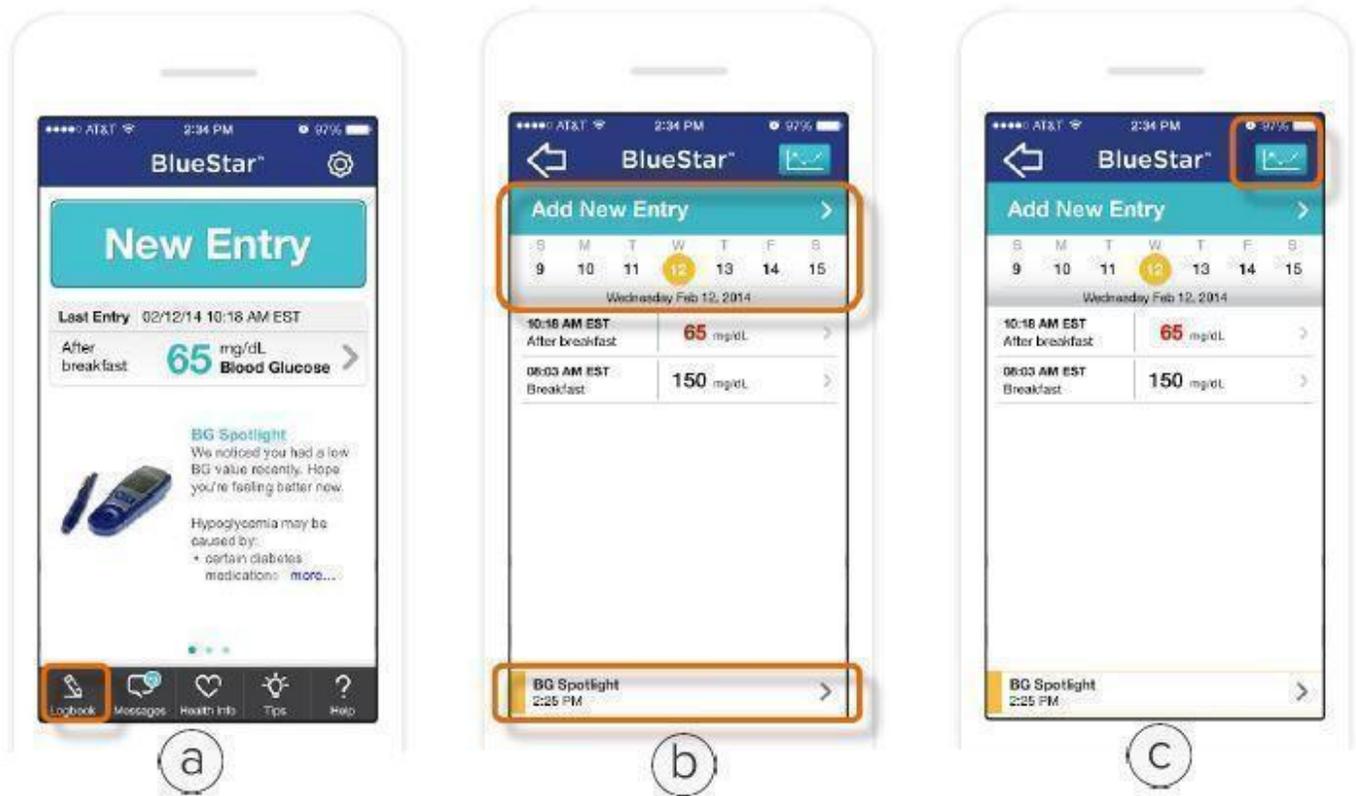

The number displayed over the Messages Icon indicates the number of unread messages in your Inbox.

a. Tap on Messages.

b. Tap on the message you wish to view. Tap the Back Arrow to return to the list of messages or Delete to remove the message from your Inbox.

Note: Your BlueStar™ messaging system is a read-only system. You cannot send or forward messages from it.

Logbook

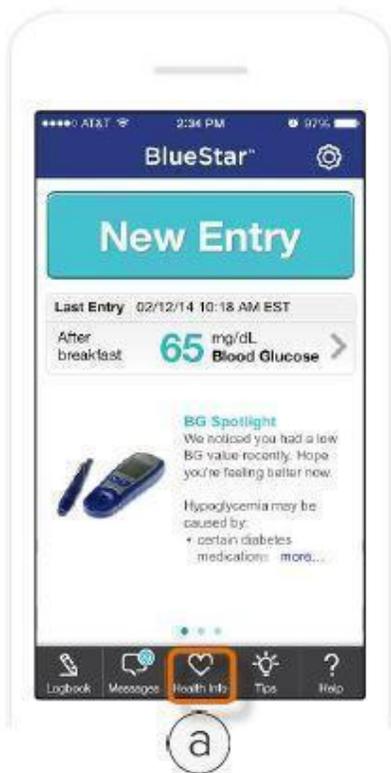

Logbook is a record of all your BG readings and related information such as carbs, meds, and notes entered into the BlueStar™ system.

- Tap on the Logbook icon.
- Select a date and Add New Entry to enter current or earlier information. You can also tap to view the BG Spotlight for that day if available.
- Tap the Graph icon to view a trend chart of your entries.

Note: Only the last thirty (30) days of data will appear in the logbook on your phone. You can edit any logbook entry, simply by clicking on it, making changes and saving it. To view your complete logbook display or to print, please Log In to the BlueStar website.

Health Info: (Medications)

This is where you can review all your medication information. To add or change medications, please log into www.bluestardiabetes.com

a. Tap on Health Info.

b. Enter your PIN. If you have not created a PIN, BlueStar™ will prompt you to create one.

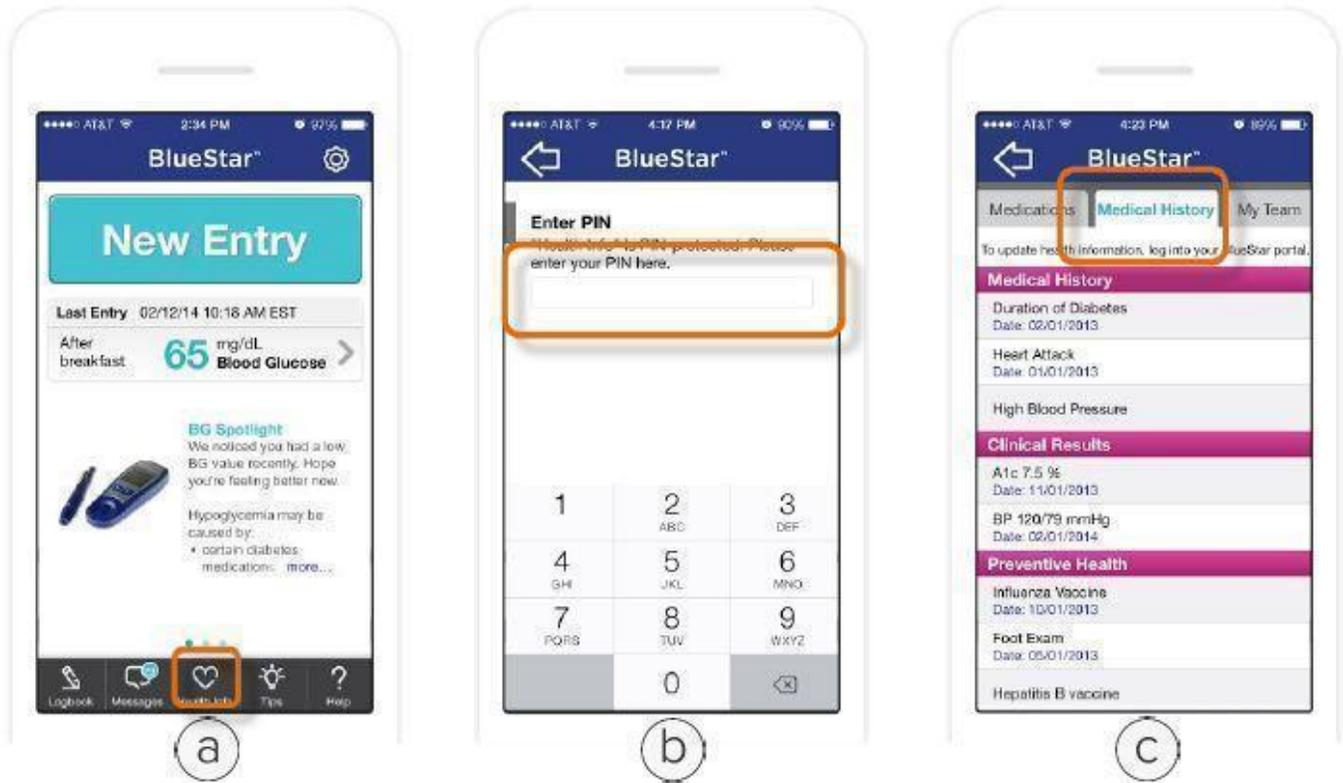

c. Tap on Medications to view the medications you have entered into BlueStar.

Note: Health Information cannot be added or edited on your phone. To edit your Health Information log on to www.bluestardiabetes.com

IMPORTANT SAFETY INFORMATION:

For medical questions, please contact your healthcare provider. If you are experiencing an emergency, please dial 911.

Health Info: (Medical History)

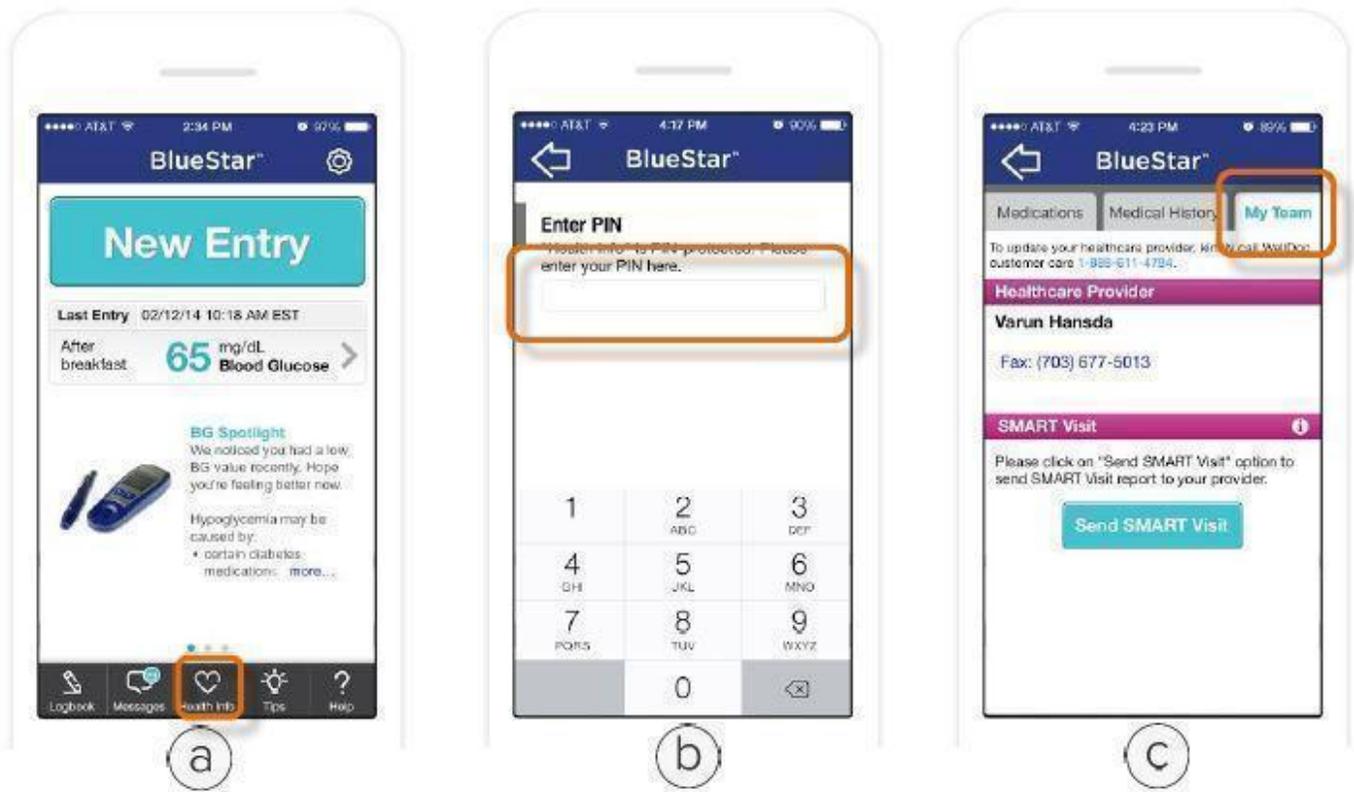

This is where you can review your medical history, lab results and preventive health information. To add or change medical history, please log in at www.bluestardiabetes.com

- a. Tap on Health Info.
- b. Enter your PIN. If you have not created a PIN, BlueStar™ will prompt you to create one.
- c. Tap the Medical History tab to view information that you have entered into BlueStar.

Note: Health Information cannot be added or edited on your phone. To edit your Health Information log on to www.bluestardiabetes.com

Health Info: (My Team)

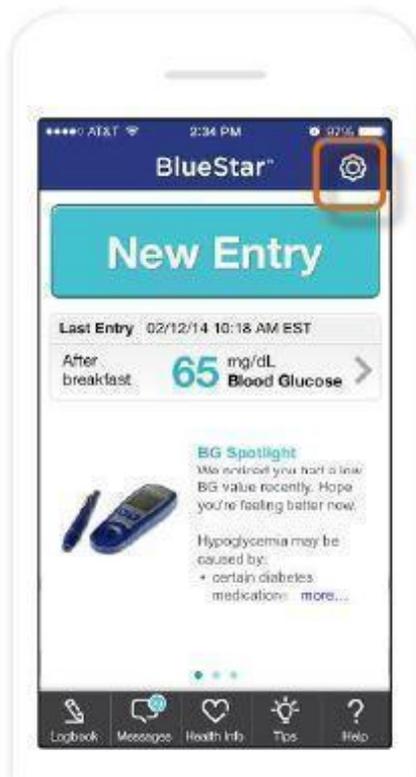

This is where you can review your healthcare provider information and send a SMART Visit to your healthcare provider. To make changes to your healthcare provider information, you must call BlueStar™ Customer Care at (888) 611-4794. Available: Monday-Friday, 9:00 a.m.-5:00 p.m. (ET).

- a. Tap on Health Info.
- b. Enter your PIN. If you have not created a PIN, BlueStar will prompt you to create one.
- c. Tap the My Team tab to view your provider information.

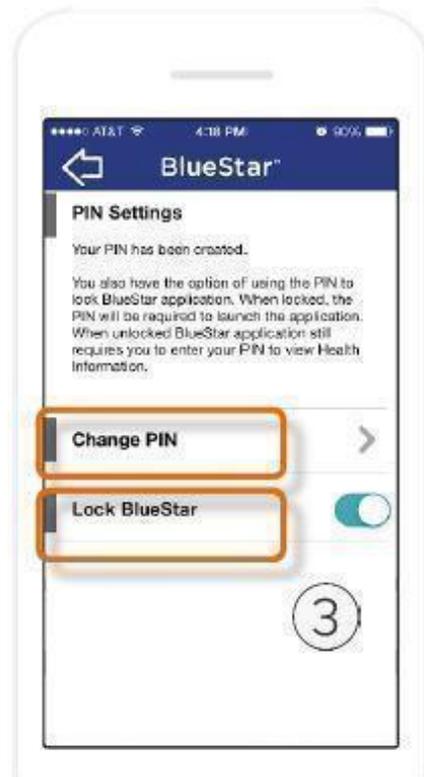

Note: SMART Visit is a report containing your lab results, dates of screening exams and vaccinations, logbook entries, and medication list. It is suggested that you send SMART Visit 1-2 days prior to an office visit so that your healthcare provider will have it to review with you at that time.

Settings

1

2

1. PIN Settings

Use PIN Settings to change your PIN number or lock BlueStar™. A PIN is required to access your Health Info.

- Tap on the Cog icon.

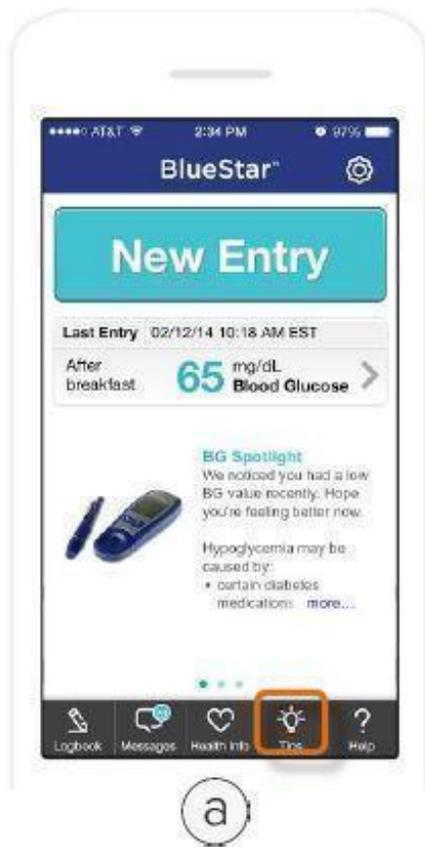

2. Change PIN

- Tap on Change PIN.
- Enter your current PIN and then your new PIN number.

3. Lock BlueStar

- Move the Lock BlueStar slider control to the right to lock your application.

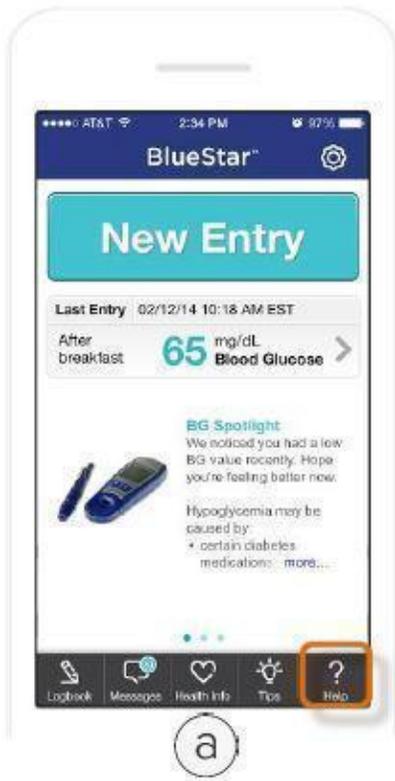

Tips

a. Tap on Tips.

b. Tap on each Tips category to view information to help you understand and manage your diabetes better.

Help

(a)

(b)

(c)

There are two ways to access helpful information about BlueStar™ from your phone:

a. Tap on the Help icon.

b. BlueStar Help

- Tap on BlueStar Tour to take a tour of BlueStar.
- Tap the Help categories to view helpful information.
- Tap the Customer Care number to speak with a BlueStar customer care representative. Available: Monday-Friday, 9:00 a.m.-5:00 p.m. (ET).

c. BlueStar Tour

Using BlueStar on the Web

Note: BlueStar™ on web is recommended for use on computers with Internet Explorer 10 and 11 and Mozilla Firefox 25 and 26 and Chrome 32

Home Screen (Web)

The screenshot displays the BlueStar web interface. At the top, there is a navigation bar with the BlueStar logo, a user greeting 'Hello, Gabriel', and icons for Home, Logbook, Health info, and Messages (24). A 'New Entry' button is visible on the right. Below the navigation bar, a carousel is shown. The first slide is a blue box titled 'Have you had a Flu shot?' with text explaining the importance of flu shots for people with diabetes and an 'Add to Profile' button. The second slide is titled 'Giving Beats Depression' and features a white gift box with a red ribbon and a motivational message: 'Feeling blue? Make someone else happy. The act of giving activates chemical messengers in the brain, such as "dopamine" that are responsible for pleasurable feelings.' To the right of the carousel, there is a 'Send SMART Visit' button and a 'Overall Profile Completeness' bar showing 63%. Below this, there are progress bars for Medical History (100%), Clinical Results (25%), Preventive Health (35%), and Lifestyle (33%). At the bottom right, there are buttons for 'Blue Star Diabetes Mobile' available on the App Store and Google Play, with a 'Send download link to phone' option. The footer contains 'POWERED BY WellDoc', copyright information '© 2014 WellDoc Inc. All rights reserved.', and links for 'Contact Us' and 'Privacy Policy'.

The BlueStar™ carousel displays important information to help you manage your diabetes.

- **BG Spotlight.** Your BG entries are reviewed on a daily basis. When BlueStar sees something worth noting, it delivers a message to your carousel. The message also appears in your logbook for that day.
- **Motivational Message.** This provides support for your general health and well-being. A new motivational message is displayed daily.
- **Educational Video.** The educational videos are designed to provide “need to know” information about diabetes in a way that fits into your busy schedule. The videos are short (2-5 minutes) and cover various aspects of diabetes. Each video is available for 48 hours before it is replaced by the next video in the carousel.

Home Screen (web) Continued

Have you had a Flu shot?
Gabriel, protect yourself from the flu! People with diabetes are more at risk for getting the flu, and getting a flu shot can help protect you. Enter the date of your last flu vaccine in the Preventive Health section. BlueStar will help remind you of when you are due for another vaccine, and will keep your healthcare provider informed on your SMART Visit report.

Health Info (Medications) (Web)

The screenshot shows the BlueStar user interface. At the top, there's a navigation bar with 'Home', 'Logbook', 'Health Info', and 'Messages'. A 'New Entry' button is on the right. Below the navigation, there are tabs for 'Medications', 'Medical History', 'Clinical Results', 'Preventive Health', 'Lifestyle', and 'Provider'. The 'Medications' tab is selected. Below the tabs, there are radio buttons for 'Currently Taking (4)', 'Suspended (0)', and 'Discontinued (5)'. A 'New Meds' button is on the right. A text box explains the purpose of the page and provides instructions on handling conflicts. Below this, there are four medication entries: metformin, Victoza 3-Pak, lisinopril, and Lipitor. Each entry shows the medication name, strength, route, and frequency. The metformin entry is highlighted with callout 2, showing '7:00 PM Dinner' and '2 tablet(s)'. Callout 3 points to the 'New Meds' button, and callout 4 points to the 'Edit', 'Suspend', and 'Discontinue' buttons for each medication.

1. Medications: This is where you can manage your medications in BlueStar™.

2. Complete prescription information is displayed including:

a. Name, Strength, Dose Time, associated Activity and Dose Amount

Note: For medications that need to be taken with food such as short-acting insulin's (including those in combination with other types of insulin), and certain oral medications such as sulfonylureas and metaglinides, only the associated meal type is displayed with the dose and not a time.

3. Click on New Meds to add a medication.

4. Edit/Suspend/Discontinue.

a. Click Edit to change a medication dose or time.

b. Click Suspend to temporarily stop a medication.

c. Click Discontinue to permanently stop a medication.

IMPORTANT SAFETY INFORMATION:

For medical questions, please contact your healthcare provider. If you are experiencing an emergency, please dial 911.

Health Info (Medications) (Web) (continued)

Add Medication

1 **Select your medication**

Search for medication: metformin

How is it taken?: tablet

What is the prescribed strength?: 500 mg

2 **When do you take it?**

Daily Weekly Monthly As Needed

How many times a day do you take this medication? 1

3 **1st time**

Time: 8:00 AM Activity: Breakfast 1 tablet(s)

4 **Save**

Adding New Meds: Once you have selected New Meds from the medication display screen (Step 3 on the previous page), you can enter new medication information.

1. Select the medication name, how it is taken (i.e. tablet, injection, etc.) and prescribed strength (i.e. how many mg or units).
2. Select whether you take it daily, weekly, monthly, or as needed. Then select how many times per day, week, month, etc. you take it.
3. Select the time that you take your medication and the associated activity (e.g. 8:00 A.M., breakfast). Enter your dose (number of pills, units, etc.) at each administration time. If you take the medication more than once per day, week, month, etc., the appropriate number of times will appear.
4. Click Save.
