UDDER 330

UDDER 330

Udder 330™ is a sanitizing iodine product that provides germicidal activity in the prevention of mastitis. It contains wetting agents to help penetrate soils to get teats clean prior to attaching the milking units. **Udder 330™** contains skin emollients to aid in improving the skin condition of the teats.

USE INSTRUCTIONS:

Udder Washing: Prepare a fresh solution of **Udder 330™** by adding 1 oz to 1.5 gallons of 110 F water. (This provides 25 ppm titratable iodine).

Using a clean single service towel, wash and massage the cow's teats and udder area. Wipe dry.

Apply the milker unit about one minute after washing.

Do not reuse towels or dip a used towel back into the solution.

Make up a fresh solution daily or when the use solution becomes visibly dirty.

Keep from freezing. If frozen, thaw completely and shake well before using.

Caution:

Hazard statement(s):

May be harmful if swallowed. May cause eye irritation.

Precautionary statement(s):

Do not eat, drink or smoke while using this product. Wear protective clothing, and eye and face protection.

Hazards not otherwise classified: None Known

First Aid:

External: If irritation occurs, flush with plenty of cool, running water for at least 15 minutes

while removing contaminated clothing and shoes. Wash clothing before reuse.

Eyes: Immediately flush with plenty of cool, running water. Remove contact lenses; then continue flushing for at least 15 minutes, holding eyelids apart.

Internal: Call a physician immediately. If swallowed, do not induce vomiting. Rinse mouth,

then immediately drink one or two large glasses of water or milk. Never give anything by

mouth to an unconscious person.

Inhalation of vapors: Should not occur with proper use of this product.

Most important symptoms/effects, acute and delayed: None known

Immediate medical attention and special treatment needed, if any: None known
