Drug Facts

Active Ingredients	Purpose
Salicylic Acid 2%	Acne Treatment

Uses

- For the treatment of acne.
- Helps clear up acne blemishes and allows skin to heal.
- Penetrates pores to control blackheads and whiteheads.

Warnings

When using this product • Skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time.

For external use only.
Keep out of reach of children.

Directions • Clean the skin thoroughly before applying this product. • Cover the entire affected area with a thin layer one to three times daily.
• Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor.
• If bothersome dryness or peeling occurs, reduce application to once a day or every other day. • If eye contact occurs, flush thoroughly with water.

Drug Facts (continued)

Inactive Ingredients
Cocamidopropyl Dimethylamine, Chlorphenesin, Citric Acid, Hydroxyethylcellulose, Phenoxylethanol, Polysorbate 20, Saccharide Isomerate, Sodium Citrate, Sodium Hydroxide, Water.

Other information
Patch testing prior to use is advised: Apply the product as directed to a small area once a day for three days to test if you are sensitive to this product. If you develop irritation, hives, swelling of eyes and mouth, blistering, or difficulty breathing, rinse off, cease use, and consult a doctor right away.
