

**CVS NIGHTTIME CHILDRENS COLD AND COUGH MULTI-SYMPATOM RELIEF-
chlorpheniramine maleate and dextromethorphan hydrobromide solution
CVS PHARMACY**

CVS Nighttime Children's Cold & Cough Relief

Drug Facts

<i>Active ingredients (in each 15 mL)</i>	<i>Purpose</i>
Chlorpheniramine maleate 2 mg	Antihistamine
Dextromethorphan HBr 15 mg	Cough suppressant

Uses

temporarily relieves cold symptoms:

- cough due to minor throat & bronchial irritation
- sneezing
- runny nose

Warnings

Do not use

- if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.
- to make a child sleepy

Ask a doctor before use if you have

- glaucoma
- cough that occurs with too much phlegm (mucus)
- a breathing problem or chronic cough that lasts or as occurs with smoking, asthma, chronic bronchitis or emphysema
- trouble urinating due to enlarged prostate gland

Ask a doctor or pharmacist before use if you are taking sedatives or tranquilizers.

When using this product

- excitability may occur, especially in children
- marked drowsiness may occur
- avoid alcoholic drinks
- be careful when driving a motor vehicle or operating machinery
- alcohol, sedatives, & tranquilizers may increase drowsiness

Stop use and ask a doctor if

- cough persists more than 1 week, tends to recur or is accompanied by fever, rash, or persistent headache.

These could be signs of a serious condition.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away at 1-800-222-1222.
