### Poison Ivy Barrier

I.C. Ivy Block was formulated to protect outdoor workers against Poison Ivy, Poison Oak, and Poison Sumac Rash.

This easy to apply formula goes on just like sunscreen to all exposed skin. It dries quickly, offering immediate protection.

IC Ivy Block is protective lotion using Zinc Acetate that acts as a barrier against Urushiol oils found in Poison Ivy or Oak. We use bentonite clay which helps absorb the urushiol for added protection and a film former that seals the pores.
