**KEY INGREDIENTS**

**Vitamin C Ester: Supercharged Brightening & Smoothing** A more potent, highly stable, & less abrasive form of antioxidant-rich vitamin C, Vitamin C Ester gives the appearance of collagen-rich skin by visibly smoothing, brightening & minimizing discoloration over time. Unlike traditional vitamin C, Vitamin C Ester is fat-soluble & easily absorbable for maximum antioxidant benefits.

**Vitamin B3: Dark Spot & Dullness Eraser** An essential vitamin, B3 minimizes the appearance of dark spots & improves skin's radiance. It absorbs quickly into skin to visibly reduce hyper-pigmentation & discoloration.

**Peptides: Fortifying Damaged Skin** A chain of amino acids, peptides visibly improve skin thickness and firmness by supporting the building blocks of healthy, youthful-looking skin. Topical application can help improve the appearance of damage caused by collagen breakdown, including wrinkles and sagging.

This whipped, lightweight moisturizing therapy visibly smooths wrinkles, creases & crepey skin texture as it corrects the appearance of uneven skin tone & sun damage.
