

LA ROCHE POSAY LABORATOIRE DERMATOLOGIQUE ANTHELIOS AOX DAILY ANTIOXIDANT SERUM BROAD SPECTRUM SPF 50 SUNSCREEN- avobenzone, homosalate, octisalate, octocrylene and oxybenzone lotion
L'Oreal USA Products Inc

Drug Facts

Active ingredient

Avobenzone 2.68%

Homosalate 9.6%

Octisalate 2.88%

Octocrylene 5.38%

Oxybenzone 3.46%

Purpose

Sunscreen

Uses

- helps prevent sunburn
- if used as directed with other sun protection measures (see **Directions**), decreases the risk of skin cancer and early skin aging caused by the sun

Warnings

For external use only

Do not use

on damaged or broken skin

When using this product

keep out of eyes. Rinse with water to remove.

Stop use and ask a doctor if

rash occurs

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

For sunscreen use:

- shake well before use
- apply generously 15 minutes before sun exposure
- reapply at least every 2 hours
- use a water resistant sunscreen if swimming or sweating
- **Sun Protection Measures.** Spending time in the sun increases your risk of skin cancer and early skin aging. To decrease this risk, regularly use a sunscreen with a Broad Spectrum SPF value of 15 or higher and other sun protection measures including:
 - limit time in the sun, especially from 10 a.m. - 2 p.m.
 - wear long-sleeved shirts, pants, hats, and sunglasses
- children under 6 months of age: Ask a doctor

Other information

protect the product in this container from excessive heat and direct sun

Inactive ingredients

water, dimethicone, cyclopentasiloxane, tocopherol, acrylates/dimethicone copolymer, phenoxyethanol, propylene glycol, caprylyl glycol, silica, sodium polyacrylate, ascorbyl glucoside, scutellaria baicalensis root extract, acrylates/C10-30 alkyl acrylate crosspolymer, disodium EDTA, diethylhexyl syringylidenemalonate, polyacrylamide, C13-14 isoparaffin, laureth-7, cassia alata leaf extract, maltodextrin, triethanolamine

1.0 FL OZ - 30 ml

Dermatologists know that UVA rays are responsible for more than 80% of skin aging (fine lines, wrinkles, sagging, dark spots).

All year-long, even in cloudy weather, UVA rays penetrate the skin down to the dermis layer.

Specifically, long UVA rays (75% of total UV rays) are known to penetrate the deepest into the skin, generating **free radicals**, highly reactive aggressors that can alter skin cells' structures and provoke collagen breakdown, leading to premature skin aging.

Dermatologists recommend using a daily broad spectrum UVA/UVB protection, in conjunction with other sun protection measures (see **Directions**), to help prevent early skin aging.

Additionally, clinical evidence acknowledged by dermatologists has proven that antioxidants can be highly effective in helping counteract the harmful effect of free radicals.

BREAK THROUGH INNOVATION

New **ANTHELIOS AOX SPF50** with reinforced **CELL-OX SHIELD™**.

For the first time, La Roche-Posay combines our advanced UVA/UVB protection with a new, exclusive, and highly potent antioxidant complex chosen for its scavenging action on daily UV-induced free radicals. This all-in-one protection comes in a breakthrough serum texture that feels weightless on skin and can be worn alone or along with a moisturizer and make-up.

Properties: COMPREHENSIVE PROTECTION AGAINST PHOTOAGING

1. Advanced anti-aging UV filtering system:

A unique association of photostable sunscreens providing advanced broad spectrum protection, with demonstrated efficacy against UVA rays, the main cause of skin aging.

2. New high potent antioxidant complex [BAICALIN + VITAMIN Cg + VITAMIN E]

Unlike traditional sunscreens, Anthelios AOX includes a highly powerful antioxidant complex acting as a second line of defense to help neutralize a wide spectrum of free radicals induced by daily UV exposure, even those induced by long UVA rays. Chosen for their synergistic effects, this new combination of antioxidants helps protect the skin from free radicals, known to cause skin structure damage which can lead to premature signs of skin aging such as fine lines, wrinkles & dark spots.

3. Breakthrough water-based serum texture for a fresh & invisible finish on skin.

Results:

Immediately, skin is moisturized, visibly radiant.

Day after day with daily use (see **Directions**), skin is protected from UV exposure and free radicals. The visible signs of photoaging are reduced, for visibly younger looking skin.

Application:

Apply each morning on clean face & neck. Fast absorbing, this serum glides over skin without clogging pores or triggering break-outs. Can be used alone or along with a daily moisturizer and make-up.

The light color of the formula is a consequence of its antioxidant activity.
See directions for sunscreen use.
