

HAND SANITIZER- isopropyl alcohol spray

ProActive Solutions USA, LLC

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Hand Sanitizer

Hand Sanitizer

Hand Sanitizer Spray™ contains 75% isopropyl alcohol with glycerin additive which decreases bacteria on the skin while leaving the skin soft and smooth.

Hand Sanitizer Spray™ contains an antibacterial ingredient to help reduce the risk of cross contamination. It is recommended for health care personnel, food handling and kitchen personnel.

Food Handling and Kitchen Personnel: **Hand Sanitizer Spray™** is the perfect compliment to your hand washing regimen. Use prior to and after food handling, and after regular hand washing to further reduce bacteria left on the skin that regular hand washing misses.

use instructions:

Use full strength. Do not dilute. **Hand Sanitizer Spray™** is not designed to replace regular hand washing to remove organic matter, i.e., blood, food, stool, etc. from hands. To apply, insert hands into dispenser. A fine mist will be dispensed. After a sufficient amount has been applied, remove hands and rub vigorously until dry. Be sure to rub in wrinkles and around nails where regular hand washing often misses.

Caution:

Hazard statement(s):

May be harmful if swallowed. May cause eye irritation.

Precautionary statement(s):

Do not eat, drink or smoke while using this product. Wear protective clothing, and eye and face protection.

Hazards not otherwise classified: None Known

First Aid:

External: If irritation occurs, flush with plenty of cool, running water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse.

Eyes: Immediately flush with plenty of cool, running water. Remove contact lenses; then continue flushing for at least 15 minutes, holding eyelids apart.

Internal: Call a physician immediately. If swallowed, do not induce vomiting. Rinse mouth, then immediately drink one or two large glasses of water or milk. Never give anything by mouth to an unconscious person.

Inhalation of vapors: Should not occur with proper use of this product.

Most important symptoms/effects, acute and delayed: None known

Immediate medical attention and special treatment needed, if any: None known
