Uses

· temporarily relieves these symptoms due to a cold with cough:

· minor aches and pains · headache · cough

· runny nose · nasal and sinus congestion

· sneezing · sore throat

· temporarily reduces fever

Warnings

Reye's syndrome: Children and teenagers who have or are recovering from chicken pox or flu-like symptoms should not use this product. When using this product, if changes in behavior with nausea and vomiting occur, consult a doctor because these symptoms could be an early sign of Reye's syndrome, a rare but serious illness.

Allergy alert: Aspirin may cause a severe allergic reaction which may include:

· hives · facial swelling · asthma (wheezing) · shock

Stomach bleeding warning: This product contains an NSAID, which may cause severe stomach bleeding. The chance is higher if you

● are age 60 or older

● have had stomach ulcers or bleeding problems

● take a blood thinning (anticoagulant) or steroid drug

● take other drugs containing prescription or nonprescription NSAIDs

(aspirin, ibuprofen, naproxen, or others)

● have 3 or more alcoholic drinks every day while using this product
● take more or for a longer time than directed

Sore throat warning: If sore throat is severe, persists for more than 2 days, is accompanied or followed by fever, headache, rash, nausea, or vomiting, consult a doctor promptly.

Do not use to sedate children.

Do not use

● if you are allergic to aspirin or any other pain reliever/fever reducer
● if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.
● if you have ever had an allergic reaction to this product or any of its ingredients
● in children under 12 years of age

Ask a doctor before use if

● stomach bleeding warning applies to you
● you have a history of stomach problems, such as heartburn
● you have high blood pressure, heart disease, liver cirrhosis, or kidney disease
● you are taking a diuretic
● you have
● asthma ● diabetes ● thyroid disease ● glaucoma
● cough with excessive phlegm (mucus)
● a breathing problem such as emphysema or chronic bronchitis
● difficulty in urination due to enlargement of the prostate gland
● persistent or chronic cough such as occurs with smoking, asthma, or emphysema
● a sodium-restricted diet

Ask a doctor or pharmacist before use if you are

taking a prescription drug for
· gout · diabetes · arthritis

● taking sedatives or tranquilizers

When using

When using this product

● do not exceed recommended dosage

· may cause marked drowsiness

● avoid alcoholic drinks

● excitability may occur, especially in children

● alcohol, sedatives, and tranquilizers may increase drowsiness

● be careful when driving a motor vehicle or operating machinery

Stop use

Stop use and ask a doctor if

▪ an allergic reaction occurs. Seek medical help right away.

● you experience any of the following signs of stomach bleeding

● feel faint ● vomit blood ● have bloody or black stools

● have stomach pain that does not get better

· pain, cough, or nasal congestion gets worse or lasts more than 7 days

· fever gets worse or lasts more than 3 days

· redness or swelling is present

· new symptoms occur

· ringing in the ears or a loss of hearing occurs

· cough comes back or occurs with rash or headache that lasts. These

could be signs of a serious condition.

· nervousness, dizziness, or sleeplessness occurs

If pregnant or breast-feeding, ask a health professional before use.

It is especially important not to use aspirin at 20 weeks or later in pregnancy unless definitely directed to do so by a doctor because it may cause problems in the unborn child or complications during delivery.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

Directions

Directions

● adults and children 12 years and over: take 2 tablets fully dissolved

in 4 oz of water every 4 hours. Do not exceed 8 tablets in 24 hours

or as directed by a doctor.

● children under 12 years: do not use
