Topiderm, Inc

Alpha Beta® On The Spot Eliminator

Drug Facts

Active Ingredient

Salicylic Acid 2%

Purpose

Acne Treatment

Uses

- For the treatment of acne
- Penetrates pores to eliminate most acne blemishes and blackheads
- Helps prevent development of new acne blemishes and blackheads

Warnings

For external use only

When using this product

- Avoid contact with eyes
- Skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Clean the skin thoroughly before applying this product.
- Cover the entire affected area with a thin layer one to three times daily.
- Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor
- If bothersome dryness or peeling occur, reduce application to once a day or every other day

Other Information

Sunburn alert

This product contains alpha hydroxy acid(s) (AHAs) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. We recommend daily use of a sunscreen, whether or not you use this product, to protect your skin from the risks associated with sun exposure.
