**Fish Flox®**  
(Ciprofloxacin)  
Antibacterial Fish Medication

Net Contents: 12 Tablets (250 mg ea.)

Fish Flox® (Ciprofloxacin) is a synthetic broad-spectrum antibiotic that is effective against gram-negative and some gram-positive bacterial pathogens of fish, including aeromonads, flexibacteria, and vibrios. It is useful for control of some common bacterial diseases in fish, including columnaris infections such as fin rot, saddleback disease, and black patch necrosis.

**Directions:** Add 1 tablet (250 mg) into aquarium for each gallon of water in the hospital tank for a 1-hour immersion bath. Add crushed tablet to some water, then add this suspension to the hospital tank. Repeat in 24 hours. Continue treatment for 5-7 days with daily water changes after each treatment.

**Warnings:** For aquarium and ornamental fish only. Not for human use. This product should not be given to fish intended for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately.

**Storage:** Keep container tightly closed and in a cool, dry place.
