- ISO24444 / ISO24442
- ASTM D120 Compliant

Lifeguards have been wearing White Zinc Oxide paste for years to protect their nose and ears against the Sun's harsh Rays. This Lifeguard Sunscreen formula uses a Micro Fine Zinc Oxide that rubs in clear and offers the same protection as the paste.

The Sun's UVA Rays reflect off of the water giving the Lifeguard a double dosage of radiation. Our Physical Zinc Oxide Sunscreen stops the Sun's Rays from entering into your skin acting like a million tiny mirrors reflecting both UVA & UVB Rays.
