Avon Products, Inc.

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

DRUG FACTS

| Active ingredient | Purpose |
|-----------------------------------|-----------------------|
| Salicylic Acid 1.00% | Acne Treatment |

Uses

- helps in the treatment of acne
- helps clear up acne blemishes
- helps prevent new acne blemishes from forming
- penetrates pores to eliminate most blackheads and acne pimples

Warnings

For external use only

When using this product

- avoid contact with eyes. If product contacts eyes, rinse thoroughly with water.
- if excessive skin irritation develops or increases, discontinue use. If irritation persists, consult a health care practitioner
- using other topical acne products at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one product should be used unless directed by a health care practitioner

Sunburn Alert: Use only as directed. This product contains alpha hydroxy acid that may increase you skin's sensitivity to the sun and particularly the possibility of sunburn. Please limit sun exposure and apply a sunburn protectant while using this product and for a week afterwards.

This product

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Flammable. Keep away from heat or flame.

Directions

- cleanse skin thoroughly with non-medicated cleanser before applying medication
- apply to blemish-prone areas one to three times daily or as directed by a health care practitioner
- do not rinse
- because excessive drying of the skin may occur, start with one application daily, then gradually increase to two to three times daily if needed or as directed by a health care practitioner
- if bothersome dryness or peeling occurs, reduce application to once a day or every other day
