Sani-Star DermaStar

Helps reduce the spread of organisms which may cause Mastitis

USE DIRECTIONS

NOT FOR HUMAN USE
FOR EXTERNAL USE ONLY
USE AT FULL STRENGTH

PRE-DIPPING: Before milking, dip or spray entire teat with this product. Wipe teats dry after application using single-service towels to avoid contamination of milk.

POST-DIPPING: After milking, spray or dip entire teat with this product. Allow to air dry.
Note: If solution in cup becomes visibly dirty, replenish with a fresh mixture of this product. Do not return unused product to original container.

CAUTION

KEEP OUT OF REACH OF CHILDREN
NOT FOR HUMAN USE

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing. Contact a physician immediately. If swallowed: Have person sip a glass of water if able to swallow. Do not give anything to an unconscious person. Do not induce vomiting. Contact a physician immediately. If breathing difficulty occurs: Move person to fresh air. Contact a physician immediately. If on skin: Take off contaminated clothing. Rinse skin with soap and water. If irritation develops and persists, contact a physician. Have the product container or label with you when going for treatment, calling a physician, the emergency number listed on this label or MSDS, or a poison control center.

PRECAUTION: Avoid eye contact. Do not ingest. Do not mix with any chemicals except as directed.

STORAGE: Store in a closed container away from sources of heat. If product becomes frozen, thaw and mix well before use.

SEE MATERIAL SAFETY DATA SHEET

CAUTION

KEEP OUT OF REACH OF CHILDREN

PRETREAT: Wash teats with water for 1-3 minutes. Then continue milking. Contact a physician immediately if you experience any of the following: 1. Breathing difficulties occur. 2. Hives appear on the face or neck. 3. Swelling of the face, neck, lips, tongue, throat, or other parts of the body. 4. Rash or redness of the skin. 5. Dizziness or lightheadedness. 6. Nausea or vomiting. 7. Stomach pain. 8. Pain in the chest or back. 9. Blurred vision. 10. Difficulty seeing. 11. Other symptoms. 12. If you experience any of the above symptoms, stop using the product immediately and contact your physician. 13. If you experience any of the above symptoms, stop using the product immediately and contact your physician. 14. If you experience any of the above symptoms, stop using the product immediately and contact your physician.

PRECAUTION: Avoid eye contact. Avoid contact with clothing, jewelry, or other items that may become contaminated. Wash hands thoroughly after use. Do not use on open wounds or cuts.

REGISTRATION: PRODUCTO REGISTRADO DEL ALCANCE DE LOS NIÑOS

NO PARA USO HUMANO

Pretratamiento: Lave los tetos con agua y jabón durante 1-3 minutos. Continúe ordeñando inmediatamente después de lavar los tetos. Contacte a un médico inmediatamente si experimenta cualquiera de los siguientes síntomas: 1. Dificultad para respirar. 2. Erupción que aparece en el rostro o en el cuello. 3. Hinchazón del rostro, cuello, labios, lengua, garganta u otras partes del cuerpo. 4. Erupción o enrojecimiento de la piel. 5. Mareos o sensación de aturdimiento. 6. Náuseas o vómitos. 7. Dolor de estómago. 8. Dolor en el pecho o en la espalda. 9. Visión borrosa. 10. Dificultad para ver. 11. Otros síntomas. 12. Si experimenta cualquiera de los síntomas anteriores, deje de usar el producto inmediatamente y contacte a su médico. 13. Si experimenta cualquiera de los síntomas anteriores, deje de usar el producto inmediatamente y contacte a su médico. 14. Si experimenta cualquiera de los síntomas anteriores, deje de usar el producto inmediatamente y contacte a su médico.

PRECAUCIÓN: Evite el contacto con los ojos. Evite el contacto con la ropa, joyas u otros artículos que puedan contaminarse. Lávese las manos cuidadosamente después de usar el producto. No use el producto en heridas abiertas o cortes.

REGISTRACIÓN: PRODUCTO REGISTRADO DEL ALCANCE DE LOS NIÑOS

NO PARA USO HUMANO

Always use caution when introducing your cows to a new teat dip.

Remember these industry guidelines:

Reduce dip cups and/or change dip lines. When introducing new dip to a dairy herd, always replace dip cups and/or dip lines to prevent mixing with the old dip. Do not use the old dip for 30 days after the new dip is introduced.

Aggressively remove keratin and exfoliated skin from teats. A complete reduction of keratin and exfoliated skin from teats is essential for the effectiveness of the dip. Use a teat dip scrubber or other device to remove keratin and exfoliated skin from the teats.

Monitor cows for changes in skin condition. Many teats are designed with keratinous scales that are shed naturally. However, changes in skin condition may indicate a problem. If you observe any of the following symptoms, stop using the dip immediately and contact your veterinarian: 1. Redness, swelling, or discharge from the teats. 2. Cracking or fissures in the skin. 3. Changes in the color or texture of the skin. 4. Other symptoms.

Changes in the color or texture of the skin. 4. Other symptoms.

Usar tazas del sellador o limpiar y/o limpiar los tubos del sellador. Cuando se introduce un nuevo sellador a una manada de vacas, siempre reemplácelas por nuevas tazas de sellador y/o limpie los tubos de sellador para evitar la mezcla de los selladores.

Limpie agresivamente los pezones para retirar la queratina y la escama. Una reducción completa de la queratina y la escama de los pezones es esencial para la efectividad del sellador. Use un raspador de pezones u otro dispositivo para retirar la queratina y la escama de los pezones.

Monitoree a las vacas y observe los cambios de condición de la piel. Muchos pezones están diseñados con escamas queratinosas que se desprenden naturalmente. Sin embargo, los cambios de condición de la piel pueden indicar un problema. Si observa cualquiera de los siguientes síntomas, deje de usar el sellador inmediatamente y contacte a su veterinario: 1. Enrojecimiento, hinchazón o flujo de los pezones. 2. Agrietamiento o fisuras en la piel. 3. Cambios en el color o la textura de la piel. 4. Otros síntomas.
