WormGard; piperazine citrate liquid (2.2% piperazine base)

Although Piperazine is a drug with a wide margin of safety. Occasionally an animal may show nausea, vomiting, or muscular tremors. Such side effects are usually associated with over-dosage: Therefore, recommended dosage should be followed carefully.

- Animals with known kidney pathology should be treated only by a veterinarian.
- For Oral Animal Use Only.
- KEEP OUT OF REACH OF CHILDREN

Consult veterinarian before using in severely debilitated animals. Do not worm animals more than twice yearly except as advised by a veterinarian. This product is effective for those roundworm stages found in the intestine and does not remove migrating larval stages. Animals should be checked periodically by a veterinarian or the presence of other intestinal parasites

Directions for Use.

- One teaspoonful (5 ml) per 5 pounds of body weight.
- Applied directly into infested animal mouth or mixed into food, milk or water.
- Administer to cats and dogs 6 weeks or older.
- Repeat treatment in 10 days after first treatment

Store at room temperature

piperazine citrate 275 mg/5 mL (1 teaspoonful). Equivalent to 110 mg piperazine Base per teaspoonful (2.2% piperazine base)
