BE YOU

GENTLE EVERYDAY WHITENING FLUORIDE TOOTH PASTE

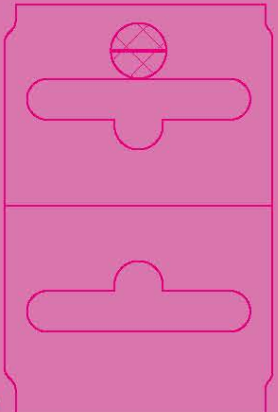

Complete Guide

# ENJOY BRUSHING - YOUR RITUAL, YOUR FEELING, YOUR SMILE!

**DON'T FORGET:**

A pea-sized amount of toothpaste is enough. For the best whitening results: Do not rinse your mouth afterwards. Be gentle when brushing and use a toothbrush with soft, high-density bristles. Once a day, brush between your teeth with an interdental brush to keep your gums and teeth healthier, and your breath fresher.

1

Hold the brush like a pen while brushing.

2

Start brushing the hardest to reach areas and finish with the easiest.

3

Position the toothbrush so that it is half on the teeth and half on the gums.

4

Now brush in small circles, gently applying light pressure.

5

If your teeth feel as smooth as glass after brushing, you've done it right!

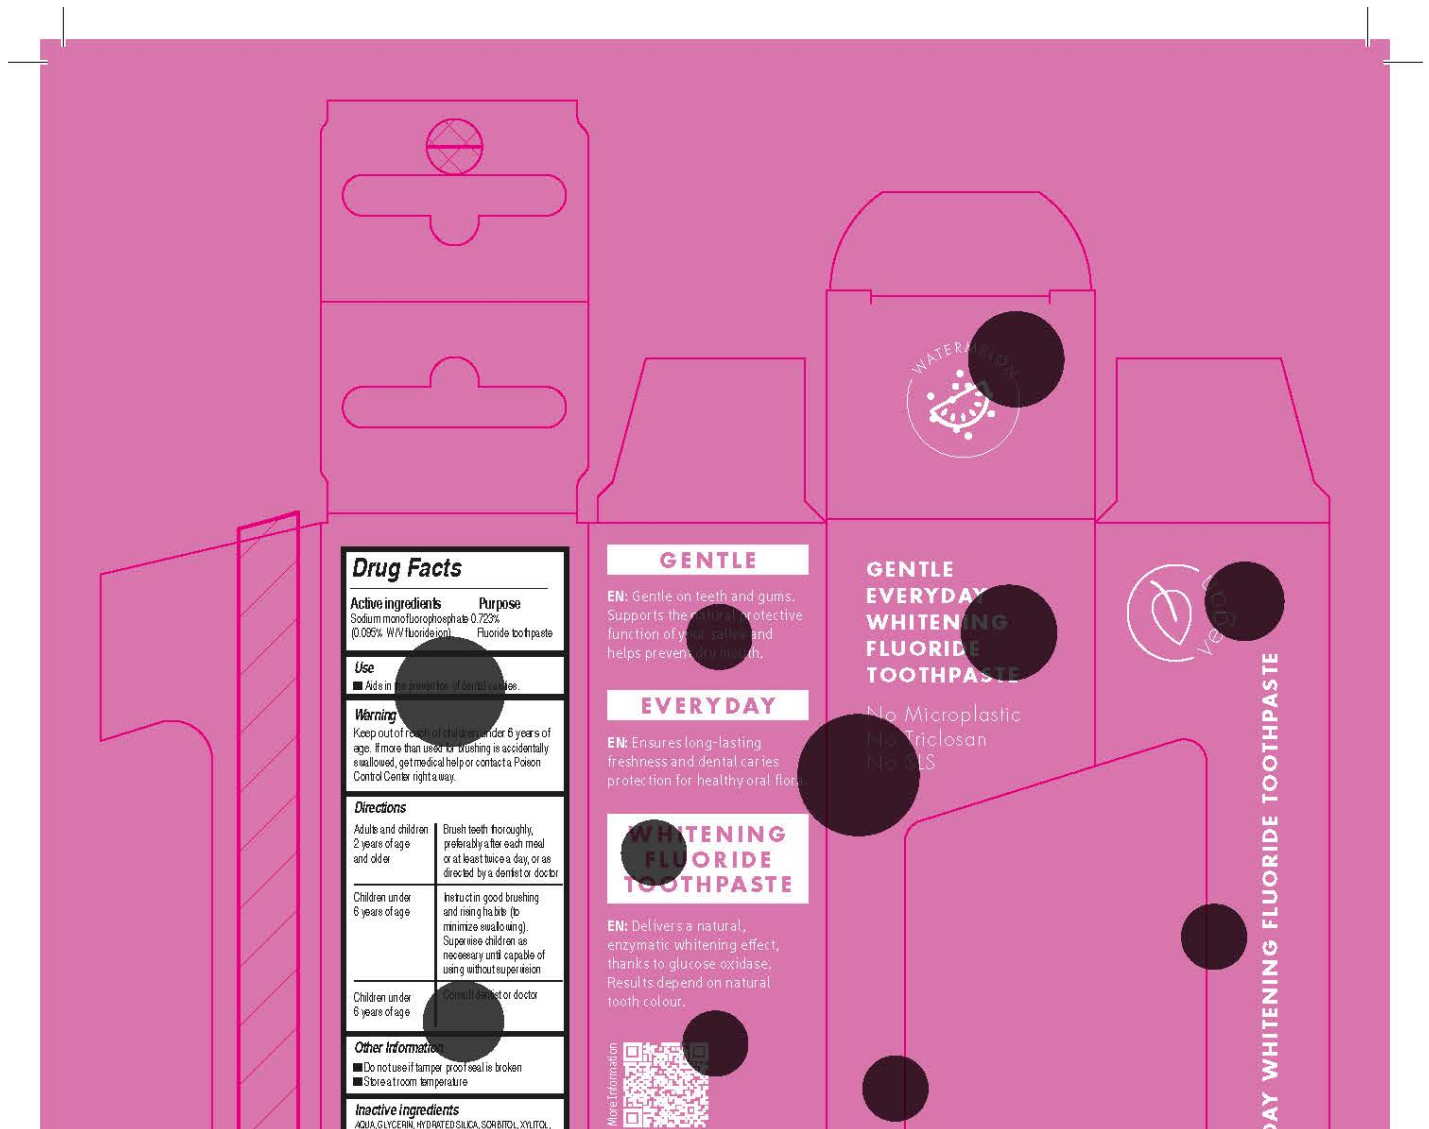

HANG THIS GUIDE ON YOUR BATHROOM MIRROR

A pea-sized amount of toothpaste is enough.

Be gentle when brushing and use a toothbrush with soft, high-density bristles.

Aids in the prevention of dental cavities.

**Warning**  
Keep out of reach of children under 6 years of age. If more than used or brushing is accidentally swallowed, get medical help or contact a Poison Control Center right a way.

**Directions**

Adults and children 2 years of age and older	Brush teeth thoroughly, preferably after each meal or at least twice a day, or as directed by a dentist or doctor.
Children under 6 years of age	Instruct in good brushing and rinsing habits (to minimize swallowing). Supervise children as necessary until capable of using without supervision.
Children under 6 years of age	Consult dentist or doctor.

**Other Information**

- Do not use if tamper proof seal is broken.
- Store at room temperature.
