

CONZOL 1 %- miconazole spray MWI

Conzol™ 1% (miconazole nitrate) Lotion & Spray

Topical antifungal agent for dogs and cats.

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

**Not for Use in Humans
Keep Out of Reach of Children**

Approved by FDA under ANADA # 200-362

DESCRIPTION:

Conzol™ Lotion, 1% (miconazole nitrate) & Conzol™ Spray, 1% (miconazole nitrate) is a synthetic antifungal agent for use in dogs and cats. It contains: 1.15% miconazole nitrate (equivalent to 1% miconazole base by weight), polyethylene glycol 400, ethyl alcohol 55%.

INDICATIONS:

Conzol™ Lotion, 1% (miconazole nitrate) & Conzol™ Spray, 1% (miconazole nitrate) is indicated for the treatment of fungal infections in dogs and cats caused by *Microsporum canis*, *Microsporum gypseum*, and *Trichophyton mentagrophytes*.

PRECAUTIONS:

In the event of sensitization or irritation due to Conzol™ Lotion, 1% (miconazole nitrate) & Conzol™ Spray, 1% (miconazole nitrate), treatment should be discontinued. Avoid contact with eyes, since irritation may result. Wash hands thoroughly after administration to avoid spread of fungal infection.

DOSAGE AND ADMINISTRATION:

Accurate diagnosis of the infecting organism is essential. Identification should be made either by direct microscopic examination of a mounting of infected tissue in a solution of potassium hydroxide, or by culture on an appropriate medium.

Lotion: Apply a light covering of Conzol™ Lotion, 1% (miconazole nitrate) to affected areas, once daily, for 2 to 4 weeks. Application is best accomplished using a gauze pad or cotton swab.

Spray: Spray affected areas from a distance of 2 to 4 inches to apply a light covering, once daily for 2 to 4 weeks. Do not allow pet to contact finished wood surfaces until pet

is thoroughly dried.

Medication must be continued until the infecting organism is completely eradicated as indicated by appropriate clinical or laboratory examination. If no improvement is noticed within 2 weeks, diagnosis should be re-evaluated. Difficult cases may require treatment for 6 weeks.

General measures in regard to hygiene should be observed to control sources of infection or reinfection. Clipping of hair around and over the sites of infection should be done at the start of treatment and again as necessary.

ACTIVE INGREDIENT:

Miconazole Nitrate.....1.15%
(equivalent to 1% miconazole base by weight)

STORAGE:

Store at controlled room temperature between 15°-30°C (59°-86°F). Keep container tightly closed when not in use.

HOW SUPPLIED:

Lotion:

Conzol™ Lotion, 1% (miconazole nitrate) is available in 30 and 60 mL bottles with droppers.

Spray:

Conzol™ Spray, 1% (miconazole nitrate) is available in 120 mL & 240 mL bottles with spray misters.

CAUTION:

Federal law restricts this drug to use by or on the order of a licensed veterinarian.

CONTACT INFORMATION:

To report suspected adverse events, for technical assistance or to obtain a copy of the Safety Data Sheet (SDS), contact First Priority, Inc. at (800) 650-4899 or www.prioritycare.com.
