Silicone Oil

OTHER INFORMATION

DentaKoteS™

DentaKote-S™ is a super hydrophobic prophylactic proprietary gel coating formulation. Used to help eliminate root sensitivity on natural teeth. It is a safe and effective homeopathic treatment. It provides immediate relief of cold-related sensitivity to the root surfaces in vital, non-diseased teeth (no underlying pathology). Supplied in a single disposable patient applicator for use on the exposed root surfaces of natural teeth due

to gum recession.

DentaKote-S™ is a self-bonding silicone formulation developed by a dentist to be bio-compatible, safe, and pH stable. It is proven effective with proper use, and the clinical guidelines are followed.

Benefits of DentaKoteS™

- Odorless & tasteless
- Improve & simplify oral hygiene habits
- Simple to apply by staff
- Eliminate root sensitivity instantly
- Some insurance coverage under “desensitizing agents”
- Passive revenue generator for the practice
