Uddergold Dry

Active Ingredients:

Triclosan (0.1%)

Directions For Use

Use in a well-ventilated area. Do not pour unused product back into the original container. Keep container tightly closed when not in use. Apply with a disposable 3 fl oz paper cup. At Dry Off At last milking prior to dry off, milk our cow completely. Infuse dry cow antibiotic into clean, dry teat, according to antibiotic label instructions. Dip the entire length of the teat in UDDER gold Dry Teat Sealant. For maximum protection, a second application may be applied after the first coating is dry. 10 Days Prior To Calving Clean teat thoroughly and wipe with dry towel. Dip entire length of teat into UDDER gold Dry Teat Sealent. Dip should remain on teat for 3-7 days. Observe daily and re-dip if the sealants removed prior to calving. After calving peel off any remaining teat sealant prior to milking.

Keep out of reach of children:

WARNING: KEEP OUT OF REACH OF CHILDREN. FLAMMABLE LIQUID AND VAPOR. MAY CAUSE RESPIRATORY TRACT AND EYE IRRITATION.

When Using

Do not get in eyes or on clothing. Avoid contamination of food. Eye protection is recommended. Keep away from heat, sparks and flame. Wash thoroughly after handling. READ THIS LABEL AND THE MATERIAL SAFETY DATA SHEET (Available from your dealer) before using this product.
