### **WALGREENS READY TO USE ENEMA LAXATIVE**

#### ***Drug Facts***

<b><i>Active ingredients (in each 118mL delivered dose)</i></b>	<b><i>Purpose</i></b>
Dibasic Sodium Phosphate 7 g	Saline laxative
Monobasic Sodium Phosphate 19 g	Saline laxative

#### **Use**

- relieves occasional constipation
- this product generally produces bowel movement in 1 to 5 minutes

#### **Warnings**

**For rectal use only.**

#### **Dosage warning**

**Using more than one enema in 24 hours can be harmful.**

#### **Do not use**

- on children under 2 years of age

#### **Ask a doctor before use if you**

- have already used a laxative for more than 3 days
- have kidney disease, have heart problems, or are dehydrated
- are 55 years of age or older
- are on a sodium-restricted diet
- have abdominal pain, nausea, or vomiting
- have a sudden change in bowel habits lasting more than 2 weeks

**Ask a doctor or pharmacist before use if you** are taking any other drug. Take this product two or more hours before or after other drugs. Laxatives may affect how other drugs work.

#### **When using this product**

- **do not use more than directed. Serious side effects may occur from excess dosage**
- do not use for more than 3 days, without asking a doctor

#### **Stop use and ask a doctor if**

- you have rectal bleeding
- you have no bowel movement within 30 minutes of enema use
- you have symptoms of dehydration (thirstiness, dizziness, vomiting, urinating less often than normal)

These symptoms may indicate a serious condition.

**If pregnant or breast-feeding**, ask a health professional before use.

**Keep out of reach of children.** If swallowed, get medical help or contact a Poison Control Center right away: 800-222-1222.

**Directions (or as directed by a doctor)**

**Single daily dosage (per 24 hours)**

**Do not use if taking another sodium phosphate product.**

**Do not use more unless directed by a doctor. See Warnings.**

Adults and children 12 years of age and older	1 bottle once daily
Children 2 to under 12 years of age	Use Pediatric Enema
Children under 2 years of age	DO NOT USE

**Other information**

#### Administering Enema:

- With steady pressure, gently insert enema tip into rectum with a slight side-to-side movement, with tip pointing toward navel. Insertion may be easier if person receiving enema bears down, as if having a bowel movement. Doing so helps relax muscles around anus.
- Do not force enema tip into rectum. Stop using if tip is hard to insert. Forcing the tip into the rectum can cause injury (especially if you have hemorrhoids). If enema tip causes rectal bleeding or pain, get immediate medical care.
- Squeeze bottle until nearly all liquid is gone. It is not necessary to empty bottle completely, as it contains more liquid than needed.
- Remove tip from rectum and stay in position until urge to evacuate is strong (usually 1 to 5 minutes). If no urge is felt after 5 minutes of using, try to empty bowel. Call a doctor promptly if no liquid comes out of the rectum after 30 minutes because dehydration could occur.
