

API STRESS COAT- aloe vera liquid
MARS FISHCARE NORTH AMERICA, INC.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Drug Label

BENEFITS:

Removes chlorine, chloramines and heavy metals to make tap water safe for fish. Contains Aloe Vera, which promotes healing and regeneration of damaged fish tissue and forms a synthetic slime coat to help prevent electrolyte loss. Proven to reduce fish stress, which can result from changing water, poor water quality and handling fish. High stress levels can cause fish to lose their slime coat and be more susceptible to disease.

STRESS COAT is proven to reduce fish stress by 40%.

WHEN TO USE:

When setting up an aquarium, adding or changing water, when adding new fish, or when fish are damaged by injury or disease.

DIRECTIONS:

Add 5 ml per 10 U.S. gallons (38 L) of water or 1/2 cup (120 ml) for each 240 U.S. gallons (912 L) of aquarium water. Double the dose to replace slime coat and to repair damaged skin and fins.

TIP:

Use STRESS COAT together with API STRESS ZYME to assure good water quality and a healthy, clean aquatic environment.

For ornamental fish use only; not to be used on fish intended for human consumption.

Keep out of reach of children.

The image shows the packaging for API Stress Coat+. The top half is blue with the API logo. Below that is a yellow section with 'STRESS COAT+' in large blue letters. The bottom half is light blue with a fish illustration. Text on the packaging includes: 'EASY-TO-USE PUMP DISPENSER', 'MAKES TAP WATER SAFE' (with bullet points: Removes chlorine & chloramines, Detoxifies heavy metals), 'PROTECTS FISH' (with bullet points: The healing power of Aloe Vera, Proven to reduce fish stress, Replaces slime coat), and '16 FL OZ (473 ml) Treats up to 940 U.S. gallons (3,558 L) of fresh or salt water'. There are also two icons: 'Start Up & Change Water' and 'Adding Fish'.

BENEFITS Removes chlorine, chloramines and heavy metals to make tap water safe for fish. Contains Aloe Vera, which promotes healing and regeneration of damaged fish tissue, and forms a synthetic slime coat to help prevent electrolyte loss. Proven to reduce fish stress, which can result from changing water, poor water quality and handling fish. High stress levels can cause fish to lose their slime coat and be more susceptible to disease.

STRESS COAT water conditioner is proven to reduce fish stress by 40%.

WHEN TO USE When setting up an aquarium, adding or changing water, when adding new fish, or when fish are damaged by injury or disease.

DIRECTIONS To unlock pump dispenser, turn nozzle to open position. For bagging fish: Pump once for up to 1 U.S. gallon (3.8 L). To remove chlorine and chloramines when adding or changing water, and to reduce fish stress when adding fish: Pump once for every 2 U.S. gallons (7.6 L) of tap water. To replace slime coat and to repair damaged skin and fins: Pump once for each U.S. gallon (3.8 L).

TIP Use STRESS COAT water conditioner together with API STRESS ZYME bacterial cleaner to assure good water quality and a healthy, clean aquatic environment.

For animal treatment only. For ornamental fish use only; not to be used on fish intended for human consumption. Keep out of reach of children.
