- more than 4,000 mg of acetaminophen in 24 hours, which is the maximum daily amount
- with other drugs containing acetaminophen
- 3 or more alcoholic drinks every day while using this product

Allergy alert: Acetaminophen may cause severe skin reactions. Symptoms may include:

- skin reddening
- blisters
- rash

If a skin reaction occurs, stop use and seek medical help right away.

Do not use

■ with any other drug containing acetaminophen (prescription or nonprescription). If you are not sure whether a drug contains acetaminophen, ask a doctor or pharmacist.

■ for more than 10 days for pain unless directed by a doctor

■ for more than 3 days for fever unless directed by a doctor

■ with any other drug using the above active ingredients

■ if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have

■ liver disease

■ thyroid disease

■ diabetes

■ high blood pressure

■ heart disease

■ glaucoma

■ chronic bronchitis or emphysema

■ difficulty in urination due to enlargement of the prostate gland

When using this product

■ drowsiness may occur

■ avoid alcoholic beverages

■ alcohol, sedatives and tranquilizers may increase the drowsiness effect

■ use caution when driving a motor vehicle or operating machinery

■ excitability may occur, especially in children

Ask a doctor or pharmacist before use if you are

■ taking the blood thinning drug warfarin

■ taking sedatives or tranquilizers

Stop use and ask a doctor if

■ symptoms do not improve within 7 days or are accompanied by a fever

■ pain or fever persists or gets worse

- any new symptoms appear
- redness or swelling is present

If pregnant or breast-feeding, ask a health professional before use.

Keep out of the reach of children.

In case of overdose, get medical help or contact a Poison Control Center right away. Prompt medical attention is critical for adults as well as for children even if you do not notice any signs or symptoms.
