## **ERMIDRA™ SPRAY**

**Zinc gluconate rehydrating and soothing spray with propylene glycol for dogs and cats.**

### **Composition:**

**Active ingredient(s):** zinc gluconate 1%.

### **Inactive ingredient(s):**

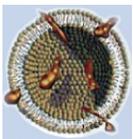

cyclodextrins, D-panthenol, demineralized water, epilobium, fragrance, glycerin, isotridecanol ethoxylated, lecithin, preservatives (2-Bromo-2-nitropropane-1,3-diol, methylchloroisothiazolinone, methylisothiazolinone), propylene glycol.

### **Indications:**

Ermidra™ Zinc Gluconate Rehydrating and Smoothing Spray is indicated for the treatment of skin dehydration and irritation in dogs and cats caused by excessive external temperatures, where the normal physiological balance of the hydrolipidic film of the skin is altered. Use under the direction of a veterinarian as an adjuvant in the treatment of acute seborrheic states. For use in dogs and cats that require skin hydration. Use after shampooing. May also help rehydrate and soothe oily or dry, scaly skin.

### **Directions for use:**

Completely drench the entire haircoat until the skin becomes damp. Do not rinse. Spray against the direction the fur grows for animals with long or thick haircoats. Ermidra™ Zinc Gluconate Rehydrating and Smoothing Spray may be used several times per day.

Liposome

### **Properties:**

The key ingredients have the following properties:

- Epilobium angustifolium extract is rich in astringent tannins which have soothing and emollient properties.

- Zinc gluconate has anti-inflammatory and antioxidant properties. Helps normalize the skin and improve its physiologic condition.
- D-panthenol is combined with beta-cyclodextrins to form a stable complex that provides hydration and elasticity to the epidermis, with a moisturizing effect.
- Liposomes are moisturizing microcapsules with carrier function that allow the glycol to penetrate into the deeper layers of the skin, with an emollient action. Liposomes are intended to enhance penetration and provide progressive release of the moisturizing agent.
- Propylene glycol has a moisturizing, humectant and keratolytic effect.
- Glycerin has rehydrating and emollient action.

### **Precautionary statements:**

For external use on dogs and cats only. May cause eye irritation. Avoid contact with eyes. If in eyes: rinse cautiously with water for several minutes. Consult a veterinarian before using on pregnant, lactating or breeding animals; or animals with a pre-existing medical condition. Use with caution in older animals. If an animal has an adverse reaction to treatment, discontinue use and contact your veterinarian.

### **Warning:**

Keep out of reach of children.

### **Storage:**

Store at room temperature.

Do not freeze.
