Additional Information on Safety Data Sheet

IMPORTANT USE INSTRUCTION: DO NOT DILUTE. USE AS IS.

DIRECTIONS FOR TEAT DIPPING:

For Pre-Milking:

Wash each individual teat with a sanitizing udder wash. (For best results, keep hair around teat base clipped.) Dip all teats up to the base of the udder with **Pre-Post 5000™** allowing a contact time of at least 15 seconds before wiping. Wipe each teat with a clean single service paper towel, then attach milking unit. If dip becomes visibly dirty during use, discard and replace with fresh dip.

For Post-Milking:

After milking unit has been removed, dip entire teat with **Pre-Post 5000™**. Do not wipe teats. In very cold weather, before returning cows outdoors, allow teats to air dry or blot dry to guard against chapping.
