Dear Mr. Cochran:

Please refer to your supplemental new drug application dated December 11, 2007, received December 12, 2007, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for Chlor-Trimeton Allergy (chlorpheniramine maleate 12 mg) extended release tablets.

This supplemental new drug application provides for reconfigured blister back labeling for the 10- and 24-count sizes to provide full information for each unit dose as described in 21 CFR 201.10 and FDA Compliance Policy Guide #7132b.10

We have completed our review of this application. This supplement is approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

The final printed labeling (FPL) must be identical to the draft labeling (blister back labeling submitted December 11, 2007), and must be formatted in accordance with the applicable requirements of 21 CFR 201.

Please submit an electronic version of the FPL according to the guidance for industry titled *Providing Regulatory Submissions in Electronic Format - NDA*. Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Individually mount 15 of the copies on heavy-weight paper or similar material. For administrative purposes, designate this submission "**FPL for approved supplement NDA 7-638/S-033**." Approval of this submission by FDA is not required before the labeling is used.

If you issue a letter communicating important information about this drug product (i.e., a "Dear Health Care Professional" letter), we request that you submit a copy of the letter to this NDA and a copy to the following address:
