Dear Jennifer Evins:

Please refer to your supplemental new drug application (sNDA) dated March 15, 2024, received March 15, 2024, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Cytoxan.

This Prior Approval sNDA provides for for updated Prescribing Information to align to the Pregnancy and Lactation Labelling Rule (PLLR). The PI had previously been a shared insert with the Cyclophosphamide Tablets. This supplement for Cyclophosphamide Injection, USP (lyophilized powder) will now have a dedicated insert. The FDA suggested revisions to the PI for NDA 012141/S-091, and to keep the harmonization across both tablets and injection inserts. The same revisions have been adopted for this update to the Cyclophosphamide Injection PI along with minor editorial changes throughout the document. The submission is supported by a review and summary of available published literature regarding the use of cyclophosphamide in pregnant and lactating women and the effects of cyclophosphamide on male and female fertility, a cumulative review of relative cases reported in the pharmacovigilance database, and a summary of drug utilization rate among females and reproductive potential.
