NDA 18948-S028
NDA 19257-S014

SUPPLEMENT APPROVAL

Leadiant Biosciences, Inc.
Attention: Gianfranco Fomasini, Ph.D.
Senior VP Scientific Affairs
9841 Washingtonian Blvd.
Suite 500
Gaithersburg, MD 20878

Dear Dr. Fomasini:

Please refer to your Supplemental New Drug Applications (sNDAs) dated April 12, 2018, received and submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Carnitor (levocarnitine) tablet and oral solutions.

We also refer to our letter dated March 1, 2018, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for Carnitor. This information pertains to the risk of hypersensitivity reactions including rash, urticaria, and facial edema.

These supplemental new drug applications provide for revisions to the labeling for Carnitor (levocarnitine) tablet and oral solutions consistent with our March 1, 2018 Safety Notification letter.

APPROVAL & LABELING

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for package insert), with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Hong Vu, Regulatory Project Manager, at (301) 796-7401.

Sincerely,

{See appended electronic signature page}
