Dear Ms. Rudnick:

Please refer to your supplemental new drug applications (sNDAs) dated and received March 24, 2022, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Risperdal (risperidone) tablets (NDA 20272) and Risperdal M-Tab (risperidone) orally disintegrating tablets (NDA 21444).

These "Changes Being Effected" sNDAs provide for revisions to the Prescribing Information (PI) for Risperdal tablets (NDA 20272) and Risperdal M-Tab orally disintegrating tablets (NDA 21444) to align with NDA 20588/S-073 for Risperdal oral solution, approved on March 11, 2022. NDAs 20272, 21444, and 20588 share a single PI. The March 11, 2022, approval provided for the addition of an Instructions for Use (IFU) document for Risperdal oral solution.

APPROVAL & LABELING

We have completed our review of these application. They are approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

We note that your March 24, 2022, submission includes final printed labeling (FPL) for your Prescribing Information. We have not reviewed this FPL. You are responsible for assuring that the wording in this FPL is identical to that of the approved content of labeling in the structured product labeling (SPL) format.

WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Instructions for Use), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
