

NDA 020309/S-028

SUPPLEMENT APPROVAL

Hospira, Inc.
Attention: Hollie Miller
Senior Associate, Regulatory Affairs
275 North Field Drive
Lake Forest, IL 60045

Dear Ms. Miller:

Please refer to your Supplemental New Drug Application (sNDA) dated and received March 15, 2013, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Magnesium Sulfate in Water for Injection, USP, in Flexible Plastic Container.

We acknowledge receipt of your amendments dated April 16 and May 10, 2013.

This "Prior Approval" supplemental new drug application provides for the following:

- 1) Revisions of the **INDICATIONS** and **USAGE** section to refer to prevention and control of seizures in preeclampsia and eclampsia, respectively. The terminology toxemia of pregnancy is removed.
- 2) Addition of a new **WARNING** that continuous administration of magnesium sulfate beyond 5 to 7 days to pregnant women can cause fetal harm.
- 3) Changes in the Pregnancy Category from Category A to Category D (See **WARNINGS** and **PRECAUTIONS**).
- 4) Relocation under the new subheading of **Nonteratogenic Effects** of language regarding signs of magnesium toxicity in the newborns of eclamptic women who were administered continuous intravenous infusion.
- 5) Addition of a new **Labor and Delivery** subsection advising that administration of Magnesium Sulfate for the unapproved treatment of preterm labor should be performed by trained obstetrical personnel in a hospital setting with appropriate obstetrical care facilities.
- 6) Revisions to the **OVERDOSAGE** section regarding resuscitation and intravenous calcium.
- 7) Addition of language under **DOSAGE** and **ADMINISTRATION** that the use of continuous administration of magnesium sulfate beyond 5 to 7 days in pregnant women can cause fetal harm
- 8) Addition of a new section titled **REFERENCES**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert, with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

PROMOTIONAL MATERIALS

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit the following, in triplicate, (1) a cover letter requesting advisory comments, (2) the proposed materials in draft or mock-up form with annotated references, and (3) the package insert(s) to:

Food and Drug Administration
Center for Drug Evaluation and Research
Office of Prescription Drug Promotion (OPDP)
5901-B Ammendale Road
Beltsville, MD 20705-1266

You must submit final promotional materials and package insert(s), accompanied by a Form FDA 2253, at the time of initial dissemination or publication [21 CFR 314.81(b)(3)(i)]. Form FDA 2253 is available at <http://www.fda.gov/opacom/morechoices/fdaforms/cder.html>; instructions are provided on page 2 of the form. For more information about submission of promotional materials to the Office of Prescription Drug Promotion (OPDP), see <http://www.fda.gov/AboutFDA/CentersOffices/CDER/ucm090142.htm>.

All promotional materials that include representations about your drug product must be promptly revised to be consistent with the labeling changes approved in this supplement, including any new safety information [21 CFR 314.70(a)(4)]. The revisions in your promotional materials should include prominent disclosure of the important new safety information that appears in the revised package labeling. Within 7 days of receipt of this letter, submit your statement of intent to comply with 21 CFR 314.70(a)(4) to the address above or by fax to 301-847-8444.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Meredith Alpert, M.S., Acting Safety Regulatory Project Manager, at (301) 796-1218.

Sincerely,

{See appended electronic signature page}

Christine P. Nguyen, M.D.
Deputy Director for Safety (Acting)
