Dear Christine:

Please refer to your supplemental new drug applications (sNDA) dated and received April 22, 2024, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Wellbutrin (bupropion hydrochloride) tablets (NDA 018644) and Wellbutrin SR (bupropion hydrochloride) sustained-release tablets (NDA 020358).

We also refer to our letter dated February 22, 2024, notifying you, under Section 505(o)(4) of the FDCA, of new safety information pertaining to the association between the use of bupropion products and the occurrence of Brugada pattern/syndrome, Drug Reaction with Eosinophilia and Systemic Symptoms (DRESS).

Our February 22, 2024, correspondence also requested revisions, unrelated to the new safety information, to include language that aligns with other similar labeling.

This supplemental new drug application provides for revisions to the labeling for Wellbutrin and Wellbutrin SR consistent with our February 22, 2024, Safety Labeling Change Notification letter.

APPROVAL & LABELING

We have completed our review of these applications. They are approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

The SPL will be accessible from publicly available labeling repositories.

Also, within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version.
