## SUPPLEMENT APPROVAL

Mylan Institutional LLC  
3711 Collins Ferry Road  
Morgantown, WV 26505

Attention: Joshua Craig  
Director, Regulatory Affairs

Dear Joshua Craig:

Please refer to your supplemental new drug applications (sNDAs) dated and received March 20, 2024, and August 29, 2025, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Ultiva (remifentanil hydrochloride) for injection.

We refer to our Prior Approval Supplement Request letter dated January 30, 2024, requesting that you relocate the information from **5.6 Administration** to section **2 Dosage and Administration**, which is a more appropriate location in the labeling.

We also refer to our letter dated July 31, 2025, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for opioid-containing products. This information pertains to the risk of toxic leukoencephalopathy; the risk of opioid-induced esophageal dysfunction; and the risk of drug interactions between gabapentinoids and opioids.

These sNDAs provide for revisions to the labeling for Ultiva consistent with our January 30, 2024, and July 31, 2025, letters.

### **APPROVAL & LABELING**

We have completed our review of these applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at

FDA.gov.<sup>1</sup> Content of labeling must be identical to the enclosed labeling (Prescribing Information), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(I)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **PROMOTIONAL MATERIALS**

For information about submitting promotional materials, see the final guidance for industry *Providing Regulatory Submissions in Electronic and Non-Electronic Format-Promotional Labeling and Advertising Materials for Human Prescription Drugs*.<sup>3</sup>
