Food and Drug Administration
Silver Spring MD 20993

NDA 021074/S-007

**SUPPLEMENT APPROVAL**

3M Health Care
Attention: Dianne Gibbs, R.A.C
Regulatory Affairs Manager
3M Infection Prevention Division
3M Center, Bldg. 0275-5W-06
St. Paul, MN 55144-1000

Dear Ms. Gibbs:

Please refer to your Supplemental New Drug Application (sNDA) dated November 18, 2011, received, November 21, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Avagard™ Surgical and Healthcare Personnel Hand Antiseptic (chlorhexidine gluconate 1% solution and ethyl alcohol 61% w/w) lotion.

This "Changes Being Effected" supplemental new drug application provides for changes in the Drug Facts labeling to add directions for use in infants.

We have completed our review of this application. It is approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

## LABELING

Submit final printed labeling, as soon as they are available, but no more than 30 days after they are printed. The final printed labeling (FPL) must be identical to the enclosed labeling: 500 mL and 1.2 L immediate container (bottle) *Drug Facts* labels submitted on November 21, 2011, but with the following minor editorial revisions:

.

a) Under Directions, move the text, "Use with care in premature infants or infants under 2 months of age. These products may cause irritation or chemical burns.", to be the first bulleted statement under Directions.

b) We also recommend that you remove the bullets under ***Warnings***, **Do not use**, and under ***Other Information***.

The final printed labeling should be submitted electronically according to the guidance for industry titled "Providing Regulatory Submissions in Electronic Format – Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications

(June 2008)." Alternatively, you may submit 12 paper copies, with 6 of the copies individually mounted on heavy-weight paper or similar material. For administrative purposes, designate this submission "**Final Printed Labeling for approved NDA 021074/S-007**" Approval of this submission by FDA is not required before the labeling is used.

## DRUG REGISTRATION AND LISTING

All drug establishment registration and drug listing information is to be submitted to FDA electronically, via the FDA automated system for processing structured product labeling (SPL) files (eLIST). At the time that you submit your final printed labeling (FPL), the content of labeling (Drug Facts) should be submitted in SPL format as described at http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm. Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf. In addition, representative container or carton labeling, whichever includes Drug Facts, (where differences exist only in the quantity of contents statement) should be submitted as a JPG file.

## REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Celia Peacock, Regulatory Project Manager at (301) 796-4154.

Sincerely,

*{See appended electronic signature page}*
