Dear Dr. Nemeth:

Please refer to your Supplemental New Drug Application (sNDA) dated and received February 13, 2012, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) Concerta (methylphenidate HCL) 18 mg, 27 mg, 36 mg, and 54 mg Extended-Release Capsules.

We acknowledge receipt of your amendments dated May 31, 2012, August 6, 2012, and May 1, 2013.

Reference is also made to an Agency letter dated August 17, 2011, requesting that you conduct an adequate *in vitro* performance study and submit proposed labeling as a labeling supplement incorporating the results of the study.

This "Prior Approval" supplemental new drug application proposes the following revisions to product labeling:

1. Addition of a new subsection entitled Alcohol Effect in the **Clinical Pharmacology-Pharmacokinetics** section (12.3)
2. Addition of the term logorrhea to the **Adverse Reactions-Postmarketing Experience** section (6.6)
3. Other minor editorial revisions throughout product labeling.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content

of labeling must be identical to the enclosed labeling (text for the package insert, and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, email Shin-Ye Sandy Chang, Regulatory Project Manager, at shinye.chang@fda.hhs.gov.

Sincerely,
